# All age groups are based on age as at 31 March 2021, with the exception of the 16-17 year olds age group which is age as at 31 March 2021 plus those who turned 16 beth 1xt April 2021 and 1xt August 2021. This age cut-off date is an interim method and is subject to change in the future as more individuals become eligible for vaccination.

The table above presents a "mubually exclusive", programme-view of crearings for each group, where individuals are only included in one group according to their highest level of risk. For any priority group, the "Groups and mubure will not buckula individuals" of they area taken as higher priority groups, for this reason, groups from too to bottom, group a trise will be sample that have in the privicus table (viduals are biologies and the area that are groups) are prior to the status of the table. The group at the figure for account groups that "Groups" and the actual number in Walks, as recording of this data is likely to be incomplete. ...

## Weekly summary

The below weekly summary shows total doses of Coronavirus vaccine administered by health board, and is updated every Thursday

As at the week ending 19 September 2021, a total of 4,583,641 doses of COVID-19 vaccine were

given in Wales and recorded in the COVID-19 Welsh Immunisation System.

Of the 4,583,641 doses given nationally, 2,369,085 were first doses and 2,214,556 were second doses. Data entry at time of reporting will be incomplete and the number of people actually vaccinated will be higher. The figures below represent a weekly snapshot in activity recorded electronically. Ongoing data entry for vaccinations already given will feed through into future weekly updates.
