| Unknown  |                | 1                        | 0                        |                        |                        |

All age groups are based on age as at 31 March 2021, with the exception of the 15-17 year olds age group which is age as at 31 March 2021 glus those who turned 16 betwee 1st April 2021 and 1st August 2021. This age cut off date is an interim method and is subject to change in the future as more individuals become eligible for vaccination.

The table above presents a "mubulily seclusive", programme-view of coverage for each group, where included as are only included in one group according to their highest level of risk. For any priority group, the "Group star" number will not include individuals if they are also in a higher priority group, for this reason, going from top to bectom, group sizes will be assisted from these in the previous table, individuals and the larger in one of them on Priority group, in this will not page in more of them on Priority group in this will not page in more of them on Priority group in this will not page in more of them of priority in the latter. The priority is a size of the priority table in the table. The priority is a size of the priority table in the table. The priority group is the size of the page in more of them of the interest and the priority table.

### Weekly summary

The below weekly summary shows total doses of Coronavirus vaccine administered by health board, and is updated every Thursday.

As at the week ending 19 September 2021, a total of 4,583,641 doses of COVID-19 vaccine were given in Wales and recorded in the COVID-19 Welsh Immunisation System.

Of the 4,583,641 doses given nationally, 2,369,085 were first doses and 2,214,556 were second doses.

Data entry at time of reporting will be incomplete and the number of people actually vaccinated will be higher. The figures below represent a weekly snapshot in activity recorded electronically. Ongoing data entry for vaccinations already given will feed through into future weekly updates.

"Unknown" indicates where vaccination records contained incomplete vaccinator or clinic details.

Data proceeded from plus numbers of vaccinations pluss in Wales and recorded electronically. It

Data presented here give numbers of vaccinations given in Wales and recorded electronically, the actual numbers of vaccinations given will be higher due to ongoing data entry. The figure in the first table above includes 43,213 vaccine doses given to people who received their vaccinations in Wales, but who were resident outside of Wales.

Data source: Welsh Immunisation System (WIS) as at 8am 23/09/2021.

Data are subject to revision as WIS data entry is completed and data quality checks are carried out. The content of this dashboard will be reviewed and updated as more information becomes available

These figures include data for vaccinations given and entered into the WIS system up to the end of Sunday 19/09/2021. These figures will be refreshed on a weekly basis
