# **COVID-19 Weekly Situation Report: State Overview**

Previous week (June 11, 2021 - June 17, 2021)

Published June 18, 2021

All data are provisional and subject to change. Data include only Florida residents.

Case data	Previous week	Cumulative
Total	10,629	2,310,881
New case positivity	3.3%	16.9%
Deaths	43	37,555

See additional notes at the end of this report for information on positivity rate, deaths, and vaccination status.

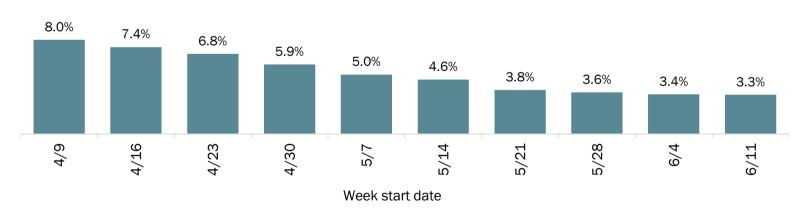

Vaccine data	Previous week	Cumulative
People vaccinated	373,438	10,659,464
First dose	123,414	1,679,648
Series completed	250,024	8,979,816

Vaccine age groups	Population	Vaccinated
Total	19,119,043	56%
12-19	1,972,084	26%
20-29	2,744,987	35%
30-39	2,784,698	42%
40-49	2,669,253	52%
50-59	2,925,172	62%
60-64	1,438,783	72%
65+	4,584,066	83%

## **COVID-19 Weekly Situation Report: Data Notes**

Previous week (June 11, 2021 - June 17, 2021)

#### General notes

All data are provisional and subject to change. All data exclude persons known to reside outside Florida.

**Population data** are based on the 2021 population estimates from Florida CHARTS: www.FLHealthCHARTS.com/FLQUERY\_New/Population/Count.

Previous week runs from Friday through Thursday. Weekly reports are published on Fridays.

#### Case notes

Case and death counts include individuals who meet a standardized national surveillance case definition. For more information on Florida's surveillance case definitions, visit www.floridahealth.gov/diseases-and-conditions/disease-reporting-and-management/disease-reporting-and-surveillance/\_documents/covid-19-case-definition.pdf.

Other race includes Asian, native Hawaiian/Pacific Islander, or other.

#### New case positivity

New case positivity, based on the number of people for whom the department received PCR or antigen laboratory results, is the number of people who test positive for the first time divided by all the people tested that week, excluding people who have previously tested positive.

#### Vaccination notes

Data in this summary pertain to COVID-19 vaccines approved by the U.S. Food and Drug Administration and have been issued an Emergency Use Authorization (Janssen COVID-19 Vaccine, Moderna COVID-19 Vaccine and Pfizer-BioNTech COVID-19 Vaccine). These data summarize the number of people who have received either their first dose or have completed the series for a COVID-19 vaccine. A person can only be counted in one category, first dose or series complete. For persons receiving Moderna or Pfizer vaccines, once they receive their second dose, they are moved from the first dose column to the series completed column. Because of this, the total first dose category may show a change from report to report not matching the total receiving their first dose from the previous day. Persons receiving Johnson & Johnson vaccines will always be counted in the series completed column.

First dose: current number of people who have only received their first dose of the Moderna or Pfizer vaccine.

Series complete: current number of people who have received both Moderna or Pfizer vaccine doses or one Johnson & Johnson dose and are considered fully immunized.
