

COVID-19 Weekly Situation Report: State Overview

Previous week (July 2, 2021 - July 8, 2021)

Published July 09, 2021

All data are provisional and subject to change. Data include only Florida residents.

Case data	Previous week	Cumulative
Total	23,697	2,361,360
New case positivity	7.8%	16.9%
Deaths	32	38,157

Vaccine data	Previous week	Cumulative
People vaccinated	207,089	11,138,986
First dose	96,089	1,511,056
Series completed	111,000	9,627,930

See additional notes at the end of this report for information on positivity rate, deaths, and vaccination status.

Vaccine age groups	Population	Vaccinated
Total	19,119,043	58%
12-19	1,972,084	31%
20-29	2,744,987	38%
30-39	2,784,698	45%
40-49	2,669,253	55%
50-59	2,925,172	64%
60-64	1,438,783	74%
65+	4,584,066	83%

New cases for the past 10 weeks

New case positivity for the past 10 weeks

Number of doses administered in the past 10 weeks

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (July 2, 2021 - July 8, 2021)

Cases and cumulative people vaccinated

All ages 12+

Ages 12 to 19

Ages 20 to 29

Ages 30 to 39

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (July 2, 2021 - July 8, 2021)

Cases and cumulative people vaccinated

Ages 40 to 49

Ages 50 to 59 years

Ages 60 to 64 years

Ages 65+ years

COVID-19 Weekly Situation Report: Data Notes

Previous week (July 2, 2021 - July 8, 2021)

General notes

All data are provisional and subject to change. All data exclude persons known to reside outside Florida.

Population data are based on the 2021 population estimates from Florida CHARTS:
www.FLHealthCHARTS.com/FLQUERY_New/Population/Count.

Previous week runs from Friday through Thursday. Weekly reports are published on Fridays.

Case notes

Case and death counts include individuals who meet a standardized national surveillance case definition. For more information on Florida's surveillance case definitions, visit www.floridahealth.gov/diseases-and-conditions/disease-reporting-and-management/disease-reporting-and-surveillance/_documents/covid-19-case-definition.pdf.

Other race includes Asian, native Hawaiian/Pacific Islander, or other.

New case positivity

New case positivity, based on the number of people for whom the department received PCR or antigen laboratory results, is the number of people who test positive for the first time divided by all the people tested that week, excluding people who have previously tested positive.

Vaccination notes

Data in this summary pertain to COVID-19 vaccines approved by the U.S. Food and Drug Administration and have been issued an Emergency Use Authorization (Janssen COVID-19 Vaccine, Moderna COVID-19 Vaccine and Pfizer-BioNTech COVID-19 Vaccine). These data summarize the number of people who have received either their first dose or have completed the series for a COVID-19 vaccine. A person can only be counted in one category, first dose or series complete. For persons receiving Moderna or Pfizer vaccines, once they receive their second dose, they are moved from the first dose column to the series completed column. Because of this, the total first dose category may show a change from report to report not matching the total receiving their first dose from the previous day. Persons receiving Johnson & Johnson vaccines will always be counted in the series completed column.

First dose: current number of people who have only received their first dose of the Moderna or Pfizer vaccine.

Series complete: current number of people who have received both Moderna or Pfizer vaccine doses or one Johnson & Johnson dose and are considered fully immunized.
