Kansas COVID-19

Demographics Tables

Data are preliminary and subject to quality improvement and quality assurance validation. Race and ethnicity data is reported into the Kansas immunization Registry (KS Webl2) by vaccine providers using patient self-identified race and ethnicity. Multiple races are valiable for selection with the primary race listed first followed by other selected races. Race is reported into the demographics section of a patient record and can be updated as needed; updated race information will apply to all previous and future vaccine administered to that individual. Data Source: Kansas Immunization Information System, KS WeblZ
