## COVID-19 Vaccine

The COVID-19 Hotline (800) 722-5725 can answer general COVID-19 vaccine questions.

The Kentucky Department for Public Health (KDPH) supports Governor Andy Beshear’s prioritization of health care as a basic human right and believes every Kentucky family deserves to see a doctor and receive treatment.

Recognizing that COVID-19-related deaths currently rank third among causes of death in Kentucky, KDPH is planning for the equitable distribution of a safe and effective COVID-19 vaccine that will advance Governor Beshear’s healthcare priority. Vaccine distribution details, including the number of doses and allocation plan, are expected to change frequently. **Please visit this page for regular updates.**

## Kentucky COVID-19 Vaccine Monitoring

Updated Monday - Friday

Current as of January 19, 2021

TOTAL COVID-19 VACCINE DOSES ADMINISTERED in KY

221,440

State Program

Doses Received in KY

226,175

Doses Administered Statewide

184,470

Long Term Care Facilities (LTCF) Program

Doses Received by the LTCF Program

106,275

Doses Administered by the LTCF Program

36,970

## Kentucky Draft COVID-19 Vaccine Distribution Plan

On Sept. 16, the CDC released its [COVID-19 Vaccination Program Interim Playbook](#) and template, requiring all U.S. states to submit an interim draft COVID-19 Vaccine Distribution Plan by Oct. 16, 2020.

### Kentucky's Interim Draft Plan

Kentucky's Vaccination Plan outlines the actions, roles, and responsibilities of state agencies and collaborating organizations that are necessary for a smooth and orderly COVID-19 vaccination distribution and administration process.

12.28.2020 Dr. Stack Press Conference Slides- Phase 1b Update

01.04.2021 Vaccine Phases Update

## Phases

Phase	Description
<b>1A</b>	Long term care facilities, assisted living facilities, health care personnel
<b>1B</b>	First responders, anyone age 70 or older, K-12 school personnel
<b>1C</b>	Anyone age 60 or older, anyone age 16 or older with CDC highest risk C19 risk conditions, all essential workers
<b>2</b>	Anyone age 40 or older.
<b>3</b>	Anyone age 16 or older.
<b>4</b>	Children under the age of 16 if the vaccine is approved for this age group (est. 18% of KY population)

---

# GOAL

Administer **90% of all vaccine** received in state  
**within 7 days of arrival.**

---

## PHASE 1 - A, B, C: REFERENCE

### Frontline Essential Workers

- Healthcare Personnel
- First Responders (Firefighters, Police)
- Corrections
- Education (teachers, support staff, daycare)
- Food & Agriculture
- Manufacturing
- U.S. Postal service workers
- Public transit workers
- Grocery store workers

### Other Essential Workers

- Transportation and logistics
- Food Service Shelter & Housing (construction)
- Finance
- IT & Communication
- Energy
- Media
- Legal
- Public Safety (Engineers)
- Water & Wastewater

Per CDC, adults of any age with the following conditions are at increase risk of severe illness from the virus that causes COVID-19:

- Cancer
- Chronic kidney disease
- COPD (chronic obstructive pulmonary disease)
- Down Syndrome
- Heart conditions, such as heart failure, coronary artery disease, or cardiomyopathies
- Immunocompromised state (weakened immune system) from solid organ transplant
- Obesity (body mass index [BMI] of 30 kg/m<sup>2</sup> or higher but < 40 kg/m<sup>2</sup>)

## Information for Kentuckians

The two-dose COVID-19 vaccination will be an important step to helping Kentucky get back to normal. It will also help set the course for a reimagined commonwealth where Wages, Health Care, Education, Retirement, and Leading by Example are prioritized. Our goal is to help keep Kentuckians healthy, safe, working, and back in classrooms. As we await the delivery of large quantities of the vaccine, we want to continue to be transparent and share information as it becomes known.

Plans are being developed to make sure those who are most at-risk get the vaccine first. Also, plans will help make sure that vaccines are distributed in a fair, ethical and transparent way.

More vaccines will be available over the next few weeks and months. We will continue to provide updates about vaccine distribution when more vaccine doses become available.

## Cost of the Vaccine

As the CDC playbook states, the expectation is that vaccine will be administered free of charge. Providers who enroll in [KDPH's COVID-19 vaccination program](#) will receive vaccine at no cost and must agree to provide vaccine regardless of a patient's availability to pay. Providers will have the opportunity to bill insurers for administration costs and to file a reimbursement claim to a fund set up by the Health Resources and Services Administration for vaccination of uninsured individuals.

## CDC Vaccine Toolkit – For You and Your Family

The CDC has a number of COVID-19 vaccine resources to help you and your family understand the COVID-19 vaccine.
