When can I get vaccinated?

Because it will take months for enough vaccine to be produced in the United States, Maine is using a phased approach to providing vaccines that is generally consistent with recommendations from a U.S. Centers for Disease Control and Prevention [advisory group](#). As vaccine availability increases, more details will be provided. For more information, please consult our [vaccines FAQs](#) and [Latest Updates](#).

Maine is currently in Phase 1a.

The goals of Maine's vaccine distribution strategy are to protect emergency services and COVID-19 response infrastructure that Maine people rely on, and save lives by focusing on Maine people at greater risk of serious illness or death as a result of COVID-19.

Phase 1a: December through January

- Health Care Personnel Needed to Preserve Critical Health Care Services
- Residents and Staff of Long-Term Care Facilities
- Other Patient-Facing Health Care Personnel
- Public Safety Personnel
- COVID-19 Response Personnel

Phase 1b: February through April

- Older Mainers
- Adults of all Ages With High-Risk Medical Conditions
- Certain Front Line Essential Workers

Phase 1c: May and June

- Other Essential Workers

Phase 2: June and Beyond

- Persons aged 16-64 not otherwise eligible in an prior phase.

How to get a vaccination

Health care, public safety, and critical COVID-19 infrastructure personnel should contact their employer or their professional associations to learn how to get a vaccine.

People age 70 and over may begin getting vaccinated, subject to vaccine availability and health system readiness, starting January 18, 2021. Health care providers authorized by Maine CDC for Phase 1b may start contacting patients to schedule a vaccine.

At this point, older Mainers should hold on calling their health care providers. Additional information on vaccination for people age 70 and older in Maine will be available the week of January 18.

Other people should come back to this website periodically to learn when and how they can get a vaccine.

Information for the public

Although the vaccine is here, COVID-19 remains a serious public health crisis. While the vaccination process is underway, Maine people should continue to [wear masks \(PDF\)](#), practice physical distancing and avoid gatherings at all times.
