COVID-19 Vaccination in Maine

Maine is committed to an accessible, flexible, and equitable vaccination effort.

Due to limited vaccine supply, our vaccination strategy has two immediate goals:

1. Save the lives of Maine people at greatest risk of serious illness or death from COVID-19.
2. Protect those directly engaged in the fight against COVID-19.

Once vaccine supply increases, Maine will offer vaccination to everyone as soon as possible.

To learn more about this process and when you can expect your COVID-19 vaccination, please consult our [FAQs \(https://www.maine.gov/covid19/vaccines/public-faq\)](https://www.maine.gov/covid19/vaccines/public-faq) and [Latest Updates. \(https://www.maine.gov/covid19/vaccines/updates\)](https://www.maine.gov/covid19/vaccines/updates)

Cumulative reported vaccinations

187,055

First Doses

136,741

Second Doses

50,314

Last updated 2-6-2021

When can I get vaccinated?

Due to the limits on vaccine supply, Maine is using a phased but flexible approach to ensure every dose the state receives is used to protect the health of Maine people. Vaccines are available only to Maine residents at this time.

Maine is currently in Phase 1b.

Please review the groups and phases below to learn when you are eligible for vaccination. While vaccination is planned to proceed in this order -- starting with the first group in each phase and then advancing to the next -- some overlap and flexibility is expected. As of early February, only older Mainers -- those 70 and older -- qualify for vaccination in Phase 1b.

Phase 1a: December through January

- Health Care Personnel Needed to Preserve Critical Health Care Services
- Residents and Staff of Long-Term Care Facilities
- Other Patient-Facing Health Care Personnel
- Public Safety Personnel
- COVID-19 Response Personnel

Phase 1b: February through April

- Older Mainers
- Adults of all Ages With High-Risk Medical Conditions
- Certain Critical Front Line Workers

Phase 1c: May and June

- Other Critical Frontline Workers

Phase 2: June and Beyond

- Persons aged 16-64 not otherwise eligible in an prior phase.

How to get a vaccination

Phase 1a

Health care, public safety, and critical COVID-19 infrastructure personnel eligible for vaccination in Phase 1a should contact their employer or their professional associations to learn how to get a vaccine.

Phase 1b

People age 70 and over may begin getting vaccinated now, subject to vaccine availability and health system readiness. [A list of COVID-19 vaccination sites for people 70 and over is now available here \(https://www.maine.gov/covid19/vaccines/vaccination-sites\)](https://www.maine.gov/covid19/vaccines/vaccination-sites). Additional sites will be added as vaccinations are scheduled.

Vaccination information for other Phase 1b groups, **including Maine people aged 65-69**, will be posted here once available.

Phases 1c and 2

Vaccination information for all other people eligible in future phases will be posted here as soon as it is available.

Information for the public

Although the vaccine is here, COVID-19 remains a serious public health crisis. While the vaccination process is underway, Maine people should continue to [wear masks \(PDF\) \(https://www.maine.gov/decd/sites/maine.gov.decd/files/inline-files/Face%20Covering%20FAQs.pdf\)](https://www.maine.gov/decd/sites/maine.gov.decd/files/inline-files/Face%20Covering%20FAQs.pdf), practice physical distancing and avoid gatherings at all times.
