County-Level COVID-19 Data Reporting

Updated each Wednesday

- [County Level Positivity Rates - November 18, 2020](#)

This chart summarizes count and rate of confirmed COVID-19 cases and tests performed in MA by county over the past 14 days. Congregate care and long term care facilities use the County Level Positivity Rates found in this chart to determine whether a sample of staff in their facility or all staff need to be tested as part of the surveillance testing programs.

Community-Level COVID-19 Data Reporting

Updated weekly, following publication of the Weekly COVID-19 Public Health Report

- [Communities Not Designated Lower-Risk](#)

This page lists communities that are not designated as lower-risk communities. These communities are not permitted to move into Step II of Phase III of the Commonwealth’s reopening plan. Lower risk communities are defined as cities and towns that have not been a designated in the “red” category in any of the last three weekly Department of Public Health weekly reports.

COVID-19 Weekly State Facility Report
