Data and Modeling Updates

Due to the state holiday, data will not be updated Monday, Sept. 6.

COVID case and testing data will be posted three times a week on Mondays, Wednesdays and Fridays.

Note on cases (09/03/2021): Today's daily case count represents new referrals of confirmed cases to the MDSS since the ast web update report. Over the two days (Thursday and Friday), the average number of new confirmed cases is 2224 per day.

Note on deaths (09/03/2021): Regular reviews of death certificate data maintained in Vital Records reporting systems are conducted by MDHHS staff three times per week. As a part of this process, records that identify COVID-19 infection as a contributing factor to death are compared against all laboratory confirmed cases of COVID-19 in the Michigan Disease Surveillance System (MDSS). If a death certificate is matched to a confirmed COVID-19 case and that record in the MDSS does not indicate the individual died, the MDSS record is updated to indicate the death and the appropriate local health department is notified. These matched deaths are then included with mortality information posted to the Michigan Coronavirus website. As a result of the most recent assessment, today's data includes **28** additional deaths identified by :his methodology.

The State of Michigan is working around the clock to test and treat COVID-19 patients. Below is the most recent data nealthcare experts across the state have compiled. It is updated Monday, Wednesday & Friday. Looking for COVID-19 Vaccine data? Click here.

Hispanic/Latino Ethnicity	Percentage of Overall Cases by Ethnicity	Percentage of Deceased Cases by Ethnicity
Hispanic/Latino	5.34%	3.25%
Non-Hispanic Latino	70.61%	86.96%
Unknown	24.05%	9.79%

Totals may not add to 100% due to rounding

Cases by Arab Ethnicity

, , ,		
Arab Ethnicity	Percentage of Overall Cases by Ethnicity	Percentage of Deceased Cases by Ethnicity
Arab	2.83%	1.75%
Non-Arab	50.66%	54.16%
Unknown	46.50%	44.09%

Totals may not add to 100% due to rounding
