Updates](#)

**COVID case and testing data will be posted three times a week on Mondays, Wednesdays and Fridays.**

Note on cases (09/07/2021): Today's daily case count represents new referrals of confirmed cases to the MDSS since the last web update report. Over the four days (Saturday, Sunday, Monday, and Tuesday), the average number of new confirmed cases is ~1578 per day.

Note on deaths (09/07/2021): Regular reviews of death certificate data maintained in Vital Records reporting systems are conducted by MDHHS staff three times per week. As a part of this process, records that identify COVID-19 infection as a contributing factor to death are compared against all laboratory confirmed cases of COVID-19 in the Michigan Disease Surveillance System (MDSS). If a death certificate is matched to a confirmed COVID-19 case and that record in the MDSS does not indicate the individual died, the MDSS record is updated to indicate the death and the appropriate local health department is notified. These matched deaths are then included with mortality information posted to the Michigan Coronavirus website. As a result of the most recent assessment, today's data includes **10** additional deaths identified by this methodology.

Note about testing data (9/7/21): Due to a technical issue, Total Testing and Confirmatory Testing data from over the weekend will not be available with today's update. Testing updates will be produced as soon as the backlogged data can be processed.

The State of Michigan is working around the clock to test and treat COVID-19 patients. Below is the most recent data healthcare experts across the state have compiled. It is updated Monday, Wednesday & Friday. [Looking for COVID-19 vaccine data? Click here.](#)

---

### Cases by Hispanic/Latino Ethnicity

| Hispanic/Latino Ethnicity | Percentage of Overall Cases by Ethnicity | Percentage of Deceased Cases by Ethnicity |
|---------------------------|--|---|
| Hispanic/Latino           | 5.33%                                    | 3.26%                                     |
| Non-Hispanic Latino       | 70.59%                                   | 87.16%                                    |
| Unknown                   | 24.08%                                   | 9.59%                                     |

*Totals may not add to 100% due to rounding*

### Cases by Arab Ethnicity

| Arab Ethnicity | Percentage of Overall Cases by Ethnicity | Percentage of Deceased Cases by Ethnicity |
|----------------|--|---|
| Arab           | 2.82%                                    | 1.75%                                     |
| Non-Arab       | 50.54%                                   | 54.18%                                    |
| Unknown        | 46.64%                                   | 44.07%                                    |

*Totals may not add to 100% due to rounding*

PUBLIC USE DATASETS 09/07/2021

**NOTE:** Due to a technical issue, Testing Data from over the weekend will not be available with today's update. Data and Testing updates will be produced as soon as the backlogged data can be processed.
