

COVID-19 updates.

Updated December 24, 2020

Updated daily at 11 a.m., with data current as of 4 p.m. the previous day.

In observance of the holiday, we will not be updating the data on this page on Friday, Dec. 25. Updates will resume on Saturday, Dec. 26.

Data is for cases that were tested and returned positive. All data is preliminary and may change as cases are investigated. Many data points are collected during case interviews. Data presented below is for all cases, regardless of interview status. Data for cases pending interview may be listed as "unknown/missing."

Positive PCR test results are considered confirmed cases. Positive antigen test results are considered probable cases.

All probable cases get the same public health follow up and recommendations as cases confirmed by PCR tests.

Daily Update:

Because all data is preliminary, the change in number of cumulative positive cases and deaths from one day to the next may not equal the newly reported cases or deaths.

Total positive cases (cumulative)	404,403
Total confirmed cases (PCR positive) (cumulative)	391,441
Total probable cases (Antigen positive) (cumulative)	12,962
