# COVID-19 North Carolina Dashboard

The North Carolina Department of Health and Human Services (NCDHHS) continuously works to improve the timeliness and accuracy of our data. Through continuous data quality improvement efforts, NCDHHS has identified 1,482 duplicate cases, which will be removed from the case total on the Saturday, Dec. 19, 2020 COVID-19 dashboard. These duplicates represent 0.3% of cases statewide and were spread over the course of the pandemic and across the state.

Knowing when to dial up or down measures that slow the spread of the virus depends on North Carolina's testing, tracing and trends. This dashboard provides an overview on the metrics and capacities that the state is following.

Updated daily by approximately 12:00 p.m. Last updated December 19, 2020 at 11:20 a.m.
