

# COVID-19 North Carolina Dashboard

On Jan. 12, 2021, NCDHHS experienced technical issues which prevented some laboratory data files from being processed in the NC COVID reporting system. As a result, cases and test data reported on Jan. 13, 2021 are lower than they would have been had all data been processed at the standard time. Data reported on Jan. 14, 2021 will be higher as it will incorporate cases that should have been entered into the system on Jan. 12, 2021.

Knowing when to dial up or down measures that slow the spread of the virus depends on North Carolina's testing, tracing and trends. This dashboard provides an overview on the metrics and capacities that the state is following.

Updated daily by approximately 12:00 p.m. Last updated January 13, 2021 at 11:45 a.m.
