*Recovered: currently not hospitalized or deceased and 14 days after onset/report. Recoveries calculated beginning on 4/6/2020.

DoD* indicate the delta († 1) or rate of change (%) over the past 24 hours only.

**Data shown are preliminary and subject to change as additional information is obtained.

Race/Ethnicity containing missing data is bucketed into the unknown category.

Trend Line*** is a 7 day rolling average of the number of the cases by date of symptom onset or positive test result for asymptomatic cases.

A 7 day lag has been applied to the trend line based on information collected to-date for the week

of 5/3 and 5/9 where within 7 days of onset date 90% of the cases had been reported.

**** The purpose of publishing aggregated statistical COVID-19 data through the OSDH Dashboard, the Executive Order Report, and the Weekly Epidemiology and Surveilance Report is to support the needs of the general public in receiving important and necessary information regarding the state of the health and safety of the citizens of Oklahoma. These resources may be used only for statistical

purposes and may not be used in any way that would determine the identity of any reported cases.

"Doses Administered" include all doses administered and reported in OSIIS through 11:59PM 12/16.
