

COVID-19 Vaccine Allocations in South Carolina

English | Español

Friday, January 15, 2021

This page will be updated regularly as information becomes available.

Total Doses Received in South Carolina
313,100

Total Doses Administered in South Carolina
146,219

• COVID-19 Pfizer-BioNTech Vaccine Allocation

Total Doses Received
195,200

Administered
First Dose / Second Dose
98,449 / 26,349

Total Doses Utilized
64%

Appointments Scheduled
Not including third-party providers
162,933

The only COVID-19 vaccine currently available to Phase 1a individuals who are not long-term facility care residents or staff is the Pfizer-BioNTech vaccine. The information above reflects the information entered by vaccine providers into the federal Vaccine Administration Management System (VAMS) database*. Vaccine providers are required to log specific information about each vaccine they administer.

To speed up the number of South Carolinians getting vaccinated, Phase 1a individuals or their employers must have contacted a provider to schedule a vaccine appointment by January 15, 2021. This deadline is to ensure priority for the vaccine. DHEC will evaluate demand up to January 15, 2021, to determine whether to request providers move forward with scheduling for the next phase of vaccinations.

Key points about vaccine allocation data include:

• Pfizer-BioNTech vaccine allocation by facility

• Moderna Vaccine/Long-Term Care Facility Vaccination

Total Doses Received	117,900
Administered to Residents	14,208
Administered to Staff	7,213
Clinics Scheduled	770

All of South Carolina's long-term care facility residents and staff are receiving COVID-19 vaccine through the [CDC's Long-Term Care Program](#), which is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care from them are prioritized for COVID-19 vaccine.

CVS and Walgreens began holding vaccine clinics at these facilities the week of December 28 and will continue to hold them until every facility resident and staff who wants vaccine receives both doses. Currently, only the Moderna vaccine is being used for this vaccination effort.

States have a limited role in this federal LTC Program, other than providing doses of vaccine. **Data and information about this program are recorded in a federal database called Tiberius; this information isn't managed by DHEC.**

• Moderna vaccine allocation by facility
