145,216 / 36,434

Total Doses
Utilized
66%

Appointments Scheduled
Not including third-party providers
269,856

Until recently, the only COVID-19 vaccine available to Phase 1a individuals who were not long-term facility care residents or staff was the Pfizer-BioNTech vaccine. The information above reflects the information entered by vaccine providers into the federal Vaccine Administration Management System (VAMS) database*. Vaccine providers are **required** <https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf> to log specific information about each vaccine they administer within 24 hours of administration.

To speed up the number of South Carolinians getting vaccinated, Phase 1a individuals or their employers must have contacted a provider to schedule a vaccine appointment by January 15, 2021. This deadline is to ensure priority for the vaccine. DHEC will evaluate demand up to January 15, 2021, to determine whether to request providers move forward with scheduling for the next phase of vaccinations.

Key points about vaccine allocation data include:

Pfizer-BioNTech vaccine allocation by facility

Moderna Vaccine/Long-Term Care Facility Vaccination

Total Doses Received
150,000

Administered to Residents
20,408

Administered to Staff
9,731

Clinics Scheduled
755

All of South Carolina's long-term care facility residents and staff are receiving
COVID-19 vaccine through the **CDC's Long-Term Care Program** <https://www.cdc.gov/
vaccines/covid-19/long-term-care/pharmacy-partnerships.html>, which is a federal partnership
between Walgreens and CVS pharmacies. These pharmacies are holding
vaccination clinics at every long-term care facility in South Carolina, ensuring those
most vulnerable to COVID-19 and the workers who care from them are prioritized
for COVID-19 vaccine.

CVS and Walgreens began holding vaccine clinics at these facilities the week of December 28 and will continue to hold them until every facility resident and staff who wants vaccine receives both doses. Currently, only the Moderna vaccine is being used for this vaccination effort.

States have a limited role in this federal LTC Program, other than providing doses of vaccine. **Data and information about this program are recorded in a federal database called Tiberius; this information isn't managed by DHEC.**
