Until recently, the only COVID-19 vaccine available to Phase 1a individuals who were not long-term facility care residents or staff was the Pfizer-BioNTech vaccine. The Moderna vaccine is now also available to Phase 1a individuals. The information above reflects the information entered by vaccine providers into the federal Vaccine Administration Management System (VAMS) database. Vaccine providers are https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf required https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf to log specific information https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf about each vaccine they administer within 24 hours.

The majority of the state's Moderna vaccine doses are currently allocated to the **CD C's Long-Term Care Program** <<https://www.cdc.gov/vaccines/covid-19/long-term-care/pharmacy-partnerships.html>>, which is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care from them are prioritized for COVID-19 vaccine.

CVS and Walgreens began holding vaccine clinics at these facilities the week of December 28 and will continue to hold them until every facility resident and staff who wants vaccine receives both doses. Currently, only the Moderna vaccine is being used for this vaccination effort.

States have a limited role in this federal LTC Program, other than providing doses of vaccine. **Data and information about this program are recorded in a federal database called Tiberius; this information, as in the spreadsheets below, isn't managed by DHEC.**
