Received

112,600

Given
First Shot / Second Shot

55,078 / 2

Total Doses
Used

49%

Pfizer & Moderna Appointments Scheduled
Not including third-party providers

372,064

The information above and in the spreadsheets below reflects the data entered by vaccine providers into the federal Vaccine Administration Management System (VAMS) database. Vaccine providers are https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf **required** https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf **to log specific information** https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf about each vaccine they administer within 24 hours. As indicated in the spreadsheets below, several hospitals and health care facilities receive their vaccine shipments each week directly from the federal government; the shipments do not come to DHEC first.

Key points about vaccine allocation data include:

Pfizer-BioNTech vaccine allocation by facility

Moderna Vaccine Allocations for LTC Program

Total Doses Received
Through LTC Program

203,400

Given to LTCF Residents
First Shot / Second Shot

26,483 / 3,890

Given to LTCF Staff
First Shot / Second Shot

11,828 / 2,857

1st / 2nd Clinics Scheduled
Through LTC Program

1,520

3rd / 4th Clinics Scheduled
Through LTC Program

710

The majority of the state's Moderna vaccine doses are currently allocated to the **CD C's Long-Term Care Program** <<https://www.cdc.gov/vaccines/covid-19/long-term-care/pharmacy-partnerships.html>>, which is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care from them are prioritized for COVID-19 vaccine.

CVS and Walgreens began holding vaccine clinics at these facilities the week of December 28 and will continue to hold them until every facility resident and staff who wants vaccine receives both doses. Currently, only the Moderna vaccine is being used for this vaccination effort.

States have a limited role in this federal LTC Program, other than providing doses of vaccine. Data and information about this program are recorded in a federal database called Tiberius; this information, as in the spreadsheets below, isn't managed by DHEC.
