The information above and in the spreadsheets below reflects the data entered by vaccine providers into the federal Vaccine Administration Management System (VAMS) database. Vaccine **providers are** https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf **to log specific information** https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf **to log specific information** https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf **to log specific information** https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf about each vaccine they administer within 24 hours. As indicated in the spreadsheets below, several hospitals and health care facilities receive their vaccine shipments each week directly from the federal government; the shipments do not come to DHEC first.

The majority of the state's Moderna vaccine doses are currently allocated to the **CD C's Long-Term Care Program** https://www.cdc.gov/vaccines/covid-19/long-term-care/pharmacy-partnerships.html, which is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care from them are prioritized for COVID-19 vaccine. CVS and Walgreens began holding vaccine clinics at these facilities the week of December 28 and will continue to hold them until every facility resident and staff who wants vaccine receives both doses. Currently, only the Moderna vaccine is being used for this vaccination effort.

States have a limited role in this federal LTC Program, other than providing doses of vaccine. Data and information about this program are recorded in a federal database called Tiberius; this information, as in the spreadsheets below, isn't managed by DHEC.
