

COVID-19 Vaccine Allocations in South Carolina

Monday, March 29, 2021

This page will be updated regularly as information becomes available.

Beginning March 30, duplicate vaccine data (i.e., vaccines received, given, doses used, etc.) will be relocated from the vaccine allocations page to be included in DHEC's vaccine dashboard. The same data will be provided, located in the interactive dashboard. This page will continue to display vaccine provider allocations and Moderna vaccine used for LTC Program.

The CDC's Long-Term Care Program is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care for them are among the first to receive their shots. CVS and Walgreens began holding vaccine clinics at these facilities on December 28, 2020. Long-term Care Program data is recorded in a federal database called Tiberius. The information in the spreadsheets below, from Tiberius, isn't managed by DHEC.
