

COVID-19 Vaccine Allocations in South Carolina

April 5, 2021

Beginning March 30, vaccine data (i.e., vaccines received, given, doses used, etc.) is available in DHEC's vaccine dashboard. The same data that was on this webpage is located in the interactive dashboard.

Vaccine providers are required to log specific information about each vaccine they administer within 24 hours. The data within these by-facility spreadsheets are provisional and subject to change.

• Moderna Vaccine Used for LTC Program

The [CDC's Long-Term Care Program](#) is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care from them are among the first to receive their shots. CVS and Walgreens began holding vaccine clinics at these facilities on December 28, 2020. Long-term Care Program data is recorded in a federal database called Tiberius. The information in the spreadsheets below, from Tiberius, isn't managed by DHEC.
