DHEC Redistribution Site:										
			Total Pfizer Doses Received	Total FIRST Doses Administered	Doses Administered	Utilization				
			905,538	516,489	360,210	97%				

Note 1: Cumulative received doses with increases or decreases for doses transferred. Doses Received are updated on Mondays based on CDC VTrckS vaccine ordering data for ordered doses; and the day after distribution for doses distributed by DHEC's Redistribution Site.

Note 2: For receiving organizations that operate multiple providers, shown are the individual provider portions if reported to DHEC; or approximations based on administered doses ratios.

Note 3: Data reported to DHEC's SIMON immunization database; or the federal VAMS database. Providers have up to 24 hours to submit administration data to either system.

Note 4: DHEC's inventory was based on 5 doses per vial prior to 2/21/21; after which the allocation system acknowledged that providers were able to get 6 doses out of the same vial with the supplied syringes. It has been reported by some facilities that they are able to a 7th doses per vial. These factors can cause a utilization > 100%.

Note 5: These are administrations that were reported to DHEC's SIMON immunization database by a provider without an assigned provider identification number. DHEC is working with these providers to complete enrollment and the administrations will be added to the table once enrolled.
