

Daily Update on Novel Coronavirus (COVID-19) September 30, 2020

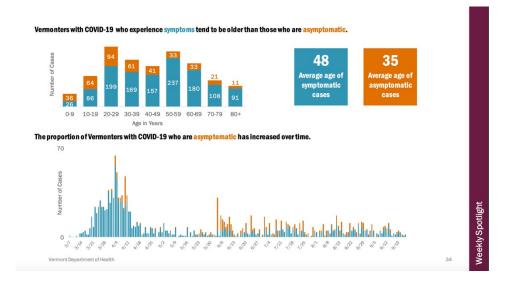

New information is in red and bold.

This update is available online at healthvermont.gov/covid19 Click the "See the Latest Update" button.

Please visit the Vermont Department of Health's COVID-19 web and data pages healthvermont.gov/covid19

Vermonters with COVID-19 and Symptoms

Nearly three in four Vermonters with COVID-19 experience symptoms. In our latest <u>Weekly</u> <u>Data Summary</u> Spotlight, learn more about who experiences symptoms in Vermont versus who is asymptomatic. You can view data by sex, race and age, in addition to seeing how the number of cases with symptoms has changed over time.

Time to Get Your Flu Shot!

It's more important than ever to get your flu shot this year — when both flu viruses and the new coronavirus may be spreading at the same time.

There are many more unknowns this year, like how common it would be to get the coronavirus and the flu, or if having the flu makes you more susceptible to getting COVID-19. We also don't know whether a surge in cases of COVID-19 and the flu could happen at the same time — overwhelming our health care system and putting people at risk.

There is no shortage of flu vaccine this year. Many health care providers and pharmacies have doses available, and if they don't yet, they will soon.

<u>Who should get a flu shot?</u> Anyone over 6 months old, with rare exceptions. And it's especially important for anyone in a <u>high-risk group</u> or who has underlying health conditions.

<u>Where can I get my flu shot?</u> Through your provider, your local pharmacy, or look for a clinic near you. If you don't have insurance, reach out to your local health office.

Find a flu shot at <u>healthvermont.gov/flu</u>.

Return to School Guidance

All schools are now in Step III of the safety and health guidance. Read the guidance for more details: <u>Strong and Healthy Start: Safety and Health Guidance for Vermont Schools</u> Questions about what this change means? Read <u>Strong and Healthy Start FAQ: Transitioning</u> <u>From Step II to Step III</u>.

Additional guidance includes:

Mental Health: <u>A Strong and Healthy Start: Social, Emotional and Mental Health Supports</u> <u>During COVID-19</u>

Sports: Fall Sports Programs for the 2020-2021 School Year

Child care: Health Guidance for Child Care and Out of School Care

Find additional resources on our Schools, Colleges and Child Care Programs web page.

COVID-19 Testing Data for Colleges/Universities and Schools

PreK-12 Schools: A table of School-Based COVID-19 Transmission is now available at <u>healthvermont.gov/currentactivity</u>. The table is updated weekly.

Colleges/Universities: The Department of Financial Regulation's <u>School Reopening web</u> page includes links to each Vermont college and university with information about their COVID-19 testing results.

Case Information

Guidance for Vermonters

Get the information you need at our Frequently Asked Questions.

- If you are having a medical emergency, call 9-1-1 or go to the hospital.
- If you think you have symptoms of COVID-19, call your health care provider.
- Maintain physical distancing of at least 6 feet and wear a mask when near others.

Traveler Information

Visit our Travel to Vermont web page for continually updated information and guidance, including about quarantine requirements, testing, and to sign up with Sara Alert for symptom check reminders.

The cross-state travel map is now updated each Tuesday.

Getting Tested for COVID-19

Anyone can get tested, but not everyone *needs* to get tested.

Talk with your health care provider If you think you should be tested for COVID-19.

• If you don't have a provider, dial 2-1-1, or contact the nearest <u>federally qualified</u> <u>health center</u> or one of Vermont's <u>free & referral clinics</u>.

Visit our testing web page for more guidance and where to get tested if you do need it.

Business Guidance

Visit the <u>Agency of Commerce and Community Development's website</u> for "Work Safe" guidance.

Take Care of Your Emotional and Mental Health

If you or someone you know is in crisis or needs emotional support, help is available 24/7:

- Call your local mental health crisis line.
- Call the National Suicide Prevention Lifeline at 1-800-273-8255.
- Text VT to 741741 to talk with someone at the Crisis Text Line.
- For more information visit healthvermont.gov/suicide.

Get self-help tips and connect to mental health services at COVID Support VT. See ways for Coping with Stress.
