Vaccine registration opens to Vermonters age 60 and older

More than **11,200** Vermonters age 60 and older made appointments for COVID-19 vaccine through the state registration system today, the first day the age group became eligible.

The system experienced some technical problems early on, leading to some people being scheduled for testing appointments instead of vaccine appointments. The issue was resolved by mid-morning and the Health Department has reached out to those impacted.

People affected can also log into their account make sure they have the appointment they want. Vaccine appointments have a “needle” icon on the left side. If needed, you can cancel any incorrect appointments and reschedule. Anyone who needs assistance can also call 855-722-7878.

The next age group, Vermonters age 50 and older, will become eligible to register on Monday, March 29. For more information visit healthvermont.gov/MyVaccine.

If you have any symptoms, stay home and get tested for COVID-19

Interviews with people who have COVID-19 indicate that some assumed they had a cold or a sinus infection, instead of first thinking they might have COVID-19. The COVID-19 virus is still circulating in our communities, and the only way to know if you have it is to get tested.

Remember that [symptoms](#) can sometimes be mild, such as a headache, cough, fatigue or a runny nose. So, if you have even just one of these symptoms, it’s best to get tested. It’s also important to avoid going to work, school or other places until you receive a negative result. COVID-19 is a highly transmissible virus, and this is how we can each protect our loved ones and our communities.

Testing is important – In fact, the only way to know if you have COVID-19 is to be tested.

If you have symptoms, talk to your health care provider. They can refer you for testing. Even if you don't have symptoms, you can still have COVID-19 and not feel sick. If you don't have symptoms and want to get tested, there are [many test sites](#) now available around the state. It's free and easy! [Watch a video about what to expect.](#)
