Wyoming COVID-19 Vaccine Information

COVID-19 Vaccine: What You Need to Know

- Vaccines are currently available in limited supply.
- The vaccine is **FREE**.
- Your insurance status does not affect your ability to receive the vaccine for free.
- The vaccine is safe. Learn more at [cdc.gov](https://www.cdc.gov).
- Wyoming vaccine distribution is coordinated and communicated locally (in each county).

The Wyoming Department of Health is working with local public health and healthcare provider partners to administer the safe and effective COVID-19 vaccines. There are [many benefits to vaccination](#). Now that COVID-19 vaccines are available, [accurate vaccine information is critical](#).

Key Points:

- Getting vaccinated is free; people receiving COVID-19 vaccines will not be asked to pay any fees.
- Wyoming is using a phased approach because of limited initial vaccine availability.

- Wyoming counties are currently vaccinating in [priorities 1a and 1b](#), which include:
- **1a:** Community and Tribal healthcare workers involved in direct patient care, residents of Wyoming's long-term care facilities, laboratory staff, pharmacy staff, and law enforcement and other first responders.
- **1b:** Generally includes people who are 70 years of age or older, frontline essential workers who must interact with the public and are unable to consistently physically distance from others.
- At the state level, we determine priority groups and order vaccine supply. At the [county level](#), we coordinate and administer the vaccine.
- **Learn about [counties'](#) progress, vaccine availability, and vaccine distribution.**
- Each of the currently authorized vaccines requires two doses for maximum effectiveness.
