Wyoming COVID-19 Vaccine Information

Key Points:

- Getting vaccinated is free; people receiving COVID-19 vaccines will not be asked to pay any fees.
- There are many benefits to vaccination. COVID-19 vaccines are safe and have been shown to be do an excellent job of keeping you from getting sick with COVID-19.
- It's important to get the facts about COVID-19 vaccines from trusted sources.
- Wyoming is using a phased approach because of limited initial vaccine availability.
- Wyoming counties are currently vaccinating in priorities 1a and 1b.
- Phase 1a includes community and tribal healthcare workers involved in direct patient care, residents of Wyoming's long-term care facilities, laboratory staff, pharmacy staff, law enforcement and other first responders.
- Phase 1b generally includes people who are 70 years of age or older, frontline essential
 workers who must interact with the public and are unable to consistently physically
 distance from others.
- At the state level, we determine priority groups and order vaccine supply. At the county level, we coordinate and administer the vaccine.
- Learn about county level progress, vaccine availability and vaccine distribution.
- Each of the currently authorized vaccines requires two doses for maximum effectiveness.

COVID-19 Vaccine: What You Need to Know

- Vaccines are currently available in limited supply.
- The vaccine is FREE.
- Your insurance status does not affect your ability to receive the vaccine for free.
- Vaccine administration is coordinated locally.
- The vaccine is safe.
