# Wyoming COVID-19 Vaccine Information

On April 13, the Centers for Disease Control and Prevention (CDC) and the Federal Drug Administration (FDA) released a joint statement recommending a temporary pause in the use of the Johnson & Johnson (Janssen) vaccine to review data involving six reported U.S. cases of a rare and severe type of blood clot in individuals after receiving this vaccine. Wyoming is following this recommendation.

If you have recently received the Johnson & Johnson COVID-19 vaccine and develop severe headache, abdominal pain, leg pain, or shortness of breath within three weeks after vaccination, contact your healthcare provider, or seek medical care.

### What You Need to Know

#### The vaccines are FREE.

- If you have insurance, your insurance can be billed for administration fees. No fees will be billed to you.
- If you do not have insurance, you will be able to get the vaccine and no fees will be billed to you.

#### The vaccines are SAFE.

• CDC has safety information and guidance to answer questions and help you prepare for vaccination.

#### The vaccines WORK!

Learn more about COVID-19 vaccination benefits and facts.

#### All Wyoming counties are offering vaccines to the general public.

• If you were included in an earlier priority group, you haven't missed your chance to get vaccinated.
