Wyoming COVID-19 Vaccine Information

On April 13, the Centers for Disease Control and Prevention (CDC) and the Federal Drug Administration (FDA) released a joint statement recommending a temporary pause in the use of the Johnson & Johnson (Janssen) vaccine to review data involving six reported U.S. cases of a rare and severe type of blood clot in individuals after receiving this vaccine. Wyoming is following this recommendation.

If you have recently received the Johnson & Johnson COVID-19 vaccine and develop severe headache, abdominal pain, leg pain, or shortness of breath within three weeks after vaccination, contact your healthcare provider, or seek medical care.

What You Need to Know

The vaccines are FREE.

- If you have insurance, your insurance can be billed for administration fees. No fees will be billed to you.
- If you do not have insurance, you will be able to get the vaccine and no fees will be billed to you.

The vaccines are SAFE.

• CDC has safety information and guidance to answer questions and help you prepare for vaccination.

The vaccines WORK!

Learn more about COVID-19 vaccination benefits and facts.

All Wyoming counties are offering vaccines to the general public.

• If you were included in an earlier priority group, you haven't missed your chance to get vaccinated.
