Coronavirus Disease 2019 (COVID-19)

For Healthcare Providers

For information on evaluating patients for COVID-19, visit [COVID-19 Resources for Healthcare Providers](#).

For Patients

Call the Alabama COVID-19 24/7 hotline at 1-888-264-2256 for testing sites and hours of operation.

For more information for those who suspect they have COVID-19, those waiting on test results, and those with COVID-19, visit [COVID-19 Resources for Patients](#).

Situation Summary

In December 2019, a new (or novel) human coronavirus (SARS-CoV-2) type emerged in China. At this time, it's unclear how easily this virus is spreading between people. Patients with confirmed COVID-19 infection have reportedly had mild to severe respiratory illness with symptoms of fever, cough, and shortness of breath appearing anywhere from 2 to 14 days after exposure. Learn more about coronaviruses, how they present, and how they are tested by visiting [Human Coronaviruses](#).

This is an emerging, rapidly evolving situation. The Alabama Department of Public Health (ADPH) and the CDC are providing updated information and guidance as it becomes available.
