PPE

Lab Information

Testing Information
For the Public

Please take steps to protect yourself. The ADH recommends:

- Wash your hands often with soap and water for at least 20 seconds.
- Practice social distancing. Avoid close contact with others, especially those who are sick, by keeping at least 6 feet between you and others.
- Stay home if you are sick, except to get medical care. If you think you have been exposed to COVID-19 and develop a fever, cough, or shortness of breath, call your health care provider. Your physician will decide if testing is necessary based on your symptoms and known exposures.
