These data are current as of 4/19/2020 at 10:00 AM and subject to change.

The following caveats apply to these data:

1. Information on race and ethnicity is collected and reported by multiple entities and may or may not reflect self-report by the individual case.
2. If no information is provided by any reporter on a case’s race or ethnicity, DPH classifies it as missing.
3. A classification of unknown indicates the reporter did not know the race and ethnicity of the individual, the individual refused to provide information, or that the originating reporting system does not capture the information.
4. Other indicates multiple races or that the originating reporting system does not capture the information.
5. Please note that due to rounding, percentages may not add up to 100%.

**Note:** DPH has issued an [emergency order](#) regarding efforts to collect complete demographic information on patients with confirmed or suspected COVID-19.
