Total	22783	1281

**Michigan Department of Corrections

***Federal Correctional Institute

City of Detroit and Wayne County are reported separately.

Note on cumulative counts: This report is provisional and subject to change. As public health investigations of individual cases continue, there will be corrections to the status and details of referred cases that result in changes to this report.

Note on the deaths: Deaths must be reported by health care providers, medical examiners/coroners, and recorded by local health departments in order to be counted.

* Beginning on 4/10/2020, MDHHS staff will review death certificate data maintained in Vital Records reporting systems, weekly. Records that identify COVID-19 infection as a contributing factor to death are compared against all laboratory confirmed cases of COVID-19 in the Michigan Disease Surveillance System (MDSS). If a death certificate is matched to a confirmed COVID-19 case, the MDSS record is updated to indicate the death and the appropriate local health department is notified. These matched deaths will be included with mortality information posted to the Michigan Coronavirus website. Today's data includes 30 additional deaths identified through this methodology.

Note on jurisdictional classification: In order to provide more accurate data, the "Other" jurisdiction category will no longer be used. Michigan Department of Corrections cases will be listed under "MDOC". Federal Correctional Institution cases will be listed under "FCI".

Hispanic/Latino	2%	1%
Non-Hispanic Latino	50%	61%
Unknown	48%	38%

****Totals may not add to 100% due to rounding****

Cumulative Total of Recovered COVID-19 Cases (as of 4/3/2020): 56*

*During this response, MDHHS is reviewing vital records statistics to identify any laboratory confirmed COVID-19 cases who are 30 days out from their onset of illness to represent recovery status. As the pandemic continues to impact

Michigan, this pool will expand to include more cases. Recovered is defined as the number of persons with a confirmed COVID-19 diagnosis who are alive 30 days post-onset (or referral date if onset is not available). The number of persons recovered on April 3rd, 2020 represents COVID-19 confirmed individuals with an onset date on or prior to March 4th, 2020. These numbers will be updated every Saturday.
