

**This information is updated daily at 3 p.m.**, with COVID-19 results included as of 10 a.m.

\*Although a reduced number of COVID-19 cases are being reported today, 645 cases compared to 1,210 reported on April 11, and deaths, 95 compared to 111 on April 11, we cannot say if this represents a true decline in COVID-19 cases and deaths in our state.

Reported case counts may reflect a reduction in the amount of laboratory testing performed over the weekend and holiday. Single day fluctuations in the number of confirmed cases may not be significant, as a number of external factors can affect data reporting.

Although there is a limited amount of data to compare, previous testing reports have illustrated consistent Sunday decreases with some being as high as a 25 percent reduction over the previous day. Sunday, March 22 had a 25 percent drop in reported tests. Sunday, March 29 saw a 3 percent drop in reported tests. Sunday, April 5 saw a 25 percent drop in reported tests.

Please note that these represent the date that the laboratory sent the information, not the date of onset of symptoms for the cases which would precede this date and is collected during the public health response to these referrals.

#### Overall Confirmed COVID-19 Cases by County updated 4/12/2020

County	Cases	Reported Deaths
Allegan	21	
Alpena	1	
Antrim	8	
Arenac	5	
Barry	8	
Bay	54	2

*City of Detroit and Wayne County are reported separately.*

*\*Michigan Department of Corrections*

*\*\*Federal Correctional Institute*

**Note on cumulative counts:** This report is provisional and subject to change. As public health investigations of individual cases continue, there will be corrections to the status and details of referred cases that result in changes to this report.

**Note on the deaths:** Deaths must be reported by health care providers, medical examiners/coroners, and recorded by local health departments in order to be counted.

**Note on jurisdictional classification:** In order to provide more accurate data, the "Other" jurisdiction category will no longer be used. Michigan Department of Corrections cases will be listed under "MDOC". Federal Correctional Institution

cases will be listed under "FCI".

Ethnicity	Percentage of Overall Cases by Ethnicity	Percentage of Deceased Cases by Ethnicity
Hispanic/Latino	2%	1%
Non-Hispanic Latino	52%	64%
Unknown	46%	35%

**\*\*Totals may not add to 100% due to rounding\*\***

**Cumulative Total of Recovered COVID-19 Cases (as of 4/10/2020): 433**

**Note on recovery:** During this response, MDHHS is reviewing vital records statistics to identify any laboratory confirmed COVID-19 cases who are 30 days out from their onset of illness to represent recovery status. As the pandemic continues to impact Michigan, this pool will expand to include more cases. Recovered is defined as the number of persons with a confirmed COVID-19 diagnosis who are alive 30 days post-onset (or referral date if onset is not available). The number of persons recovered on April 10th, 2020 represents COVID-19 confirmed individuals with an onset date on or prior to March 11th, 2020. These numbers will be updated every Saturday.
