

Coronavirus Disease 2019 (COVID-19)

What Michigan is Doing

On Tuesday, March 10, Michigan's Governor Whitmer declared a state of emergency as the state's first positive cases of COVID-19 were identified. The emergency declaration enables the state to quickly deploy resources (equipment, supplies and/or personnel) to local jurisdictions to support their response efforts in combatting the spread of COVID-19. The declaration places Michigan at a heightened state of preparedness for response. All Michiganders are encouraged to follow the recommendations from MDHHS and the CDC to protect themselves and slow the spread of COVID-19.
