

If you are a health professional evaluating a patient for suspected coronavirus disease 2019 (COVID-19), please see [Evaluating and Testing for Coronavirus Disease 2019 \(COVID-19\)](#).

Current situation

- Health officials with the Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO) are monitoring an outbreak of respiratory illness, called coronavirus disease 2019 (COVID-19), caused by a novel (new) coronavirus that was first detected in Wuhan City, Hubei Province, China.
- Cases of COVID-19 are also being reported in a growing number of countries internationally, including the United States, where the first case of COVID-19 was detected in a traveler returning from Wuhan on Jan. 21, 2020.
