Health professionals evaluating a patient for suspected coronavirus disease 2019 (COVID-19), should follow guidance for <u>Evaluating and Testing for Coronavirus Disease 2019 (COVID-19)</u>.

Minnesota Case Information

Not all cases of COVID-19 are tested, so it is not a representative of the total number of people in Minnesota who have or had COVID-19. Number of positive cases is the cases that were tested and returned positive. All data are preliminary and may change as cases are investigated.

As of March 22, 2020

Positive: 169Deaths: 1

Approximate number of patients tested at the MDH Public Health Lab:
4680

Numbers are cumulative since Jan. 20, 2020.

Number of Positive Results by County

County of residence is confirmed during the case interview. At the time of this posting not all interviews have been completed. The data on this map may not equal the total number of reported positive cases.

Emergency

Preparedness

Infectious Respirate

Illness

2019 Novel Corona (Hmong)

Koronafayraska Cu

<u>ee 2019</u> (Somali)

Enfermedad del Coronavirus 2019 (COVID-19) (Spanish)
