Coronavirus Disease 2019 (COVID-19)

Updated March 29, 2020

The national Centers for Disease Control and Prevention (CDC) and the Mississippi State Department of Health continue to closely monitor the outbreak of respiratory illnesses caused by the novel (new) coronavirus COVID-19, and are working to limit the spread of cases nationally and in Mississippi. MSDH is actively working with doctors and hospitals on responding safely and effectively to this outbreak.

COVID-19 in Mississippi and the U.S.

Cases of COVID-19 continue to be identified in U.S. states and in Mississippi. This is a rapidly changing situation that is continually being monitored by the CDC and MSDH as new cases are identified.

Mississippians are advised to take health precautions to prevent the transmission of disease, and stay in touch for the latest information on the situation in Mississippi.

Mississippi COVID-19 Case Map

An interactive version of this case map is also available: View interactive Mississippi case map

About our case counts: We currently update our map and statistics each morning with test results from the previous day. Outside laboratories also report positive test results to us, which are included in our totals.

County case numbers and deaths may change as investigation finds new or additional information.

Mississippi COVID-19 Cases to Date

Total cases as of 6 p.m. March 28, 2020. New cases reported today: 95

COVID-19 Testing

The MSDH Public Health Laboratory is testing samples submitted by Mississippi physicians and healthcare providers around the state in cases where COVID-19 is determined to be a risk. Anyone with symptoms of fever, severe cough or severe chest

pains – especially those who are older or in poor health – should call their doctor or healthcare provider for instructions on safely being examined. Healthcare providers can assess your health history and symptoms, and perform testing for COVID-19 as needed.

What MSDH Is Doing

The Mississippi State Department of Health is aggressively responding to the rapidly evolving COVID-19 situation. With other state agencies, it has activated emergency operations in order to slow the spread of COVID-19 in Mississippi.

Other steps that MSDH is taking include:

- Surveillance: Increasing surveillance (monitoring) activities to identify cases of COVID-19 as quickly as possible and to limit person-to-person transmission.
- Testing: Making COVID-19 testing available for healthcare providers through the MSDH Public Health Laboratory.
- Planning: Working directly with hospitals and healthcare providers across the state to plan for possible cases of COVID-19, preparing them to identify and safely treat cases.
- Readiness: Assessing statewide hospital capacities, ensuring the capacity of the MSDH Public Health Laboratory for COVID-19 testing, and informing all Mississippi healthcare providers about procedures for identifying and testing for coronavirus cases.
- Information: Providing guidance to business, education and other entities on how to respond to the possible spread of COVID-19 in the community.
