

Coronavirus Disease 2019 (COVID-19)

Updated May 27, 2020

The national Centers for Disease Control and Prevention (CDC) and the Mississippi State Department of Health continue to closely monitor the outbreak of respiratory illnesses caused by the novel (new) coronavirus COVID-19, and are working to limit the spread of cases nationally and in Mississippi. MSDH is actively working with doctors and hospitals to quickly identify cases and respond effectively to limit this outbreak.

If you are waiting for test results, it is essential to remain at home. Do not go to work or leave home. Stay in a specific room at home and avoid contact with other family members as much as possible. These steps are important to prevent the possible spread of disease.

LTC OUTBREAKS

123

Current outbreaks in long-term care facilities. (One or more cases among staff or residents counts as an outbreak.)

About our case counts: We currently update our case totals each morning based on test results from the previous day. Outside laboratories also report positive test results to us, which are included in our totals.

County case numbers and deaths may change as investigation finds new or additional information.

Cases and Deaths by County

Totals of all reported cases since March 11, including those in long-term care (LTC) facilities.

Long-Term Care Facility Cases and Deaths by Race

Long-term care (LTC) facilities like nursing homes are considered high risk locations because their residents are older or in poor health. Even one case of COVID-19 in these facilities among residents or employees is considered an outbreak. We investigate residents, staff and close contacts of infected individuals for possible exposure. (Long-term care facilities include nursing homes, intermediate care facilities for individuals with intellectual disabilities, personal care homes, assisted living facilities, long-term acute care facilities, and psychiatric or chemical dependency residential treatment centers.)

The charts below are based on available data at the time of publication. Charts do not include cases where insufficient details of the case are known.

Mississippi COVID-19 Cases and Deaths by Race with Ethnicity as of 6 pm CT, May 26, 2020

Total Cases
14,044

	American Indian or Alaska Native	Asian	Black	White	Other	Unknown
Non Hispanic	173	48	7026	3660	161	20
Hispanic	4	1	29	180	556	14
Unknown Ethnicity	381	5	530	392	295	569

Total Deaths
670

	American Indian or Alaska Native	Asian	Black	White	Other	Unknown
Non Hispanic	21	0	338	275	0	0
Hispanic	1	0	0	3	5	0
Unknown Ethnicity	4	0	9	12	2	0

Note: In our charts by race, "Other" includes American Indian and Asian.

COVID-19 Cases and Deaths by Date of Illness Onset through May 26, 2020*, Mississippi

Note: Values up to two weeks in the past on the Date of Illness Onset chart above can change as we update it with new

information from disease investigation.

COVID-19 LTCF and Non-LTCF Deaths by Date of Death through May 26, 2020*, Mississippi

● Resident of LTCF Deaths ● Non-Resident of LTCF Deaths

*based on available data as of 6pm CT; LTCF is Long Term Care Facility

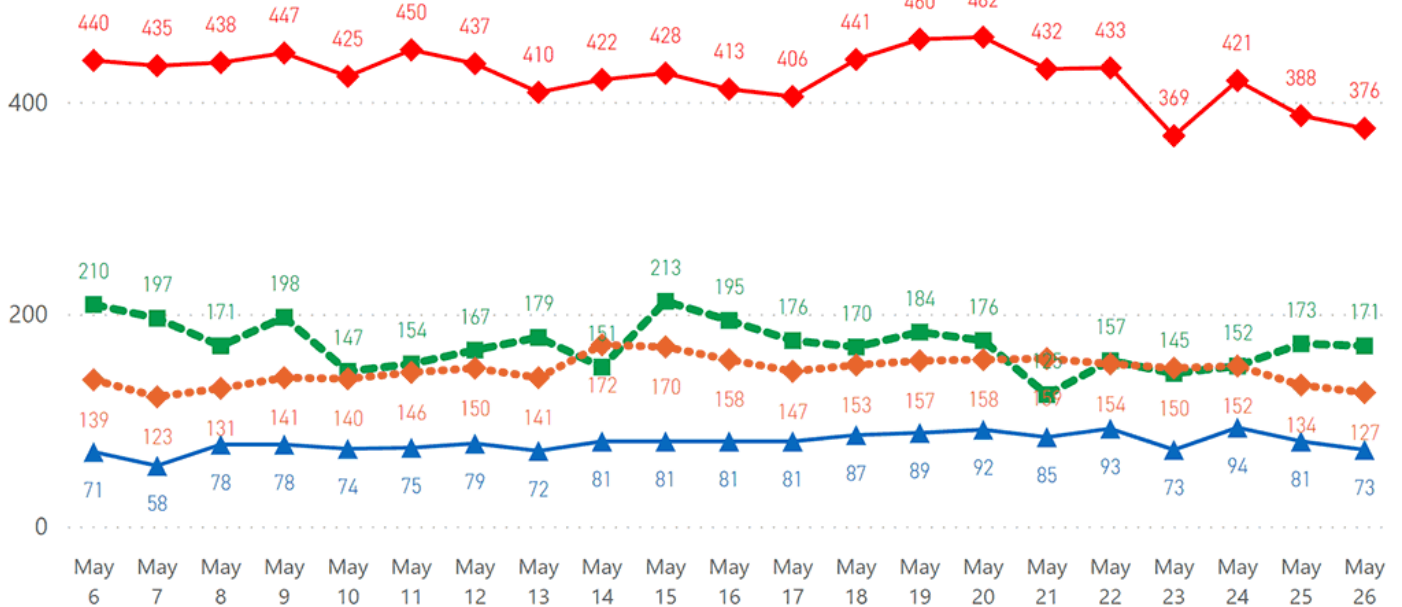

COVID-19 Hospitalizations Reported by MS Hospitals, 5/6/20-5/26/20 *, **

◆ Patients with Confirmed Infection ■ Patients with Suspected Infection ◆ Patients in an ICU ▲ Patients on Ventilators

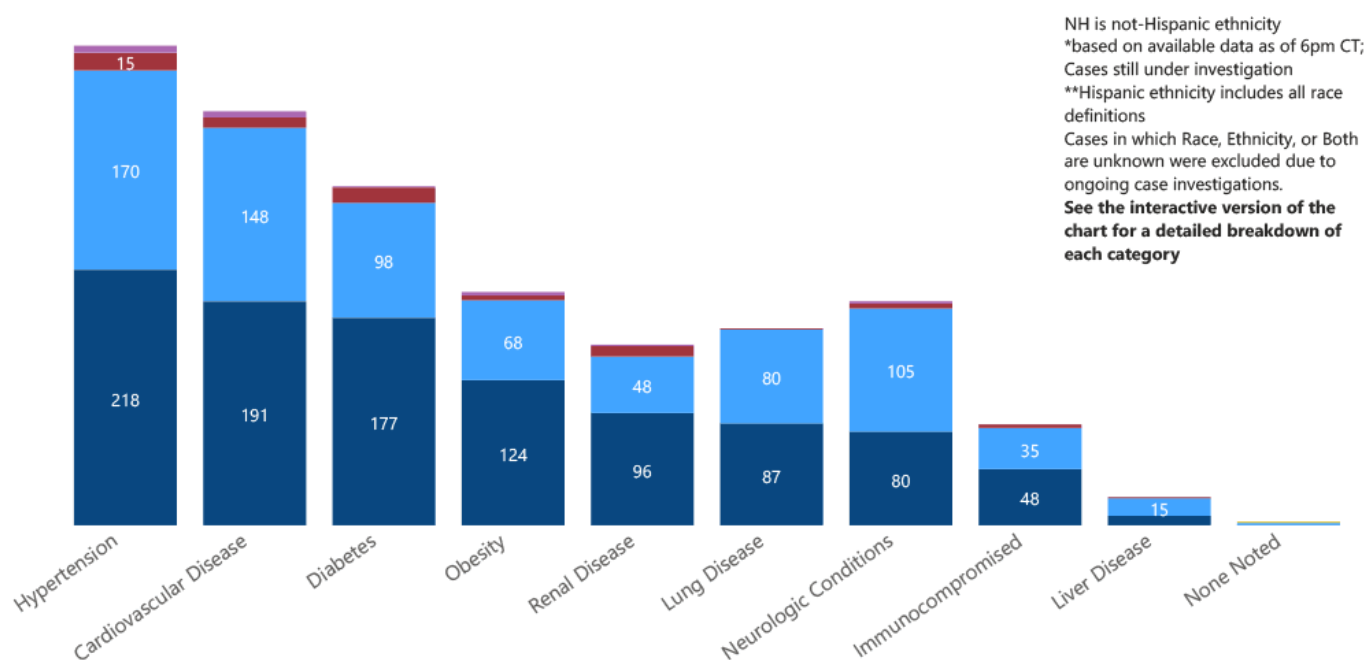

*Patients in ICU and on ventilators are COVID-19 confirmed.

**Data are incomplete for 5/23 to 5/26.

COVID-19 Underlying Conditions in Deaths by Race/Ethnicity through May 26, 2020*, Mississippi

Race/Ethnicity ● Black (NH) ● White (NH) ● American Indian or Alaska Native (NH) ● Hispanic** ● Other (NH) ● Asian (NH)

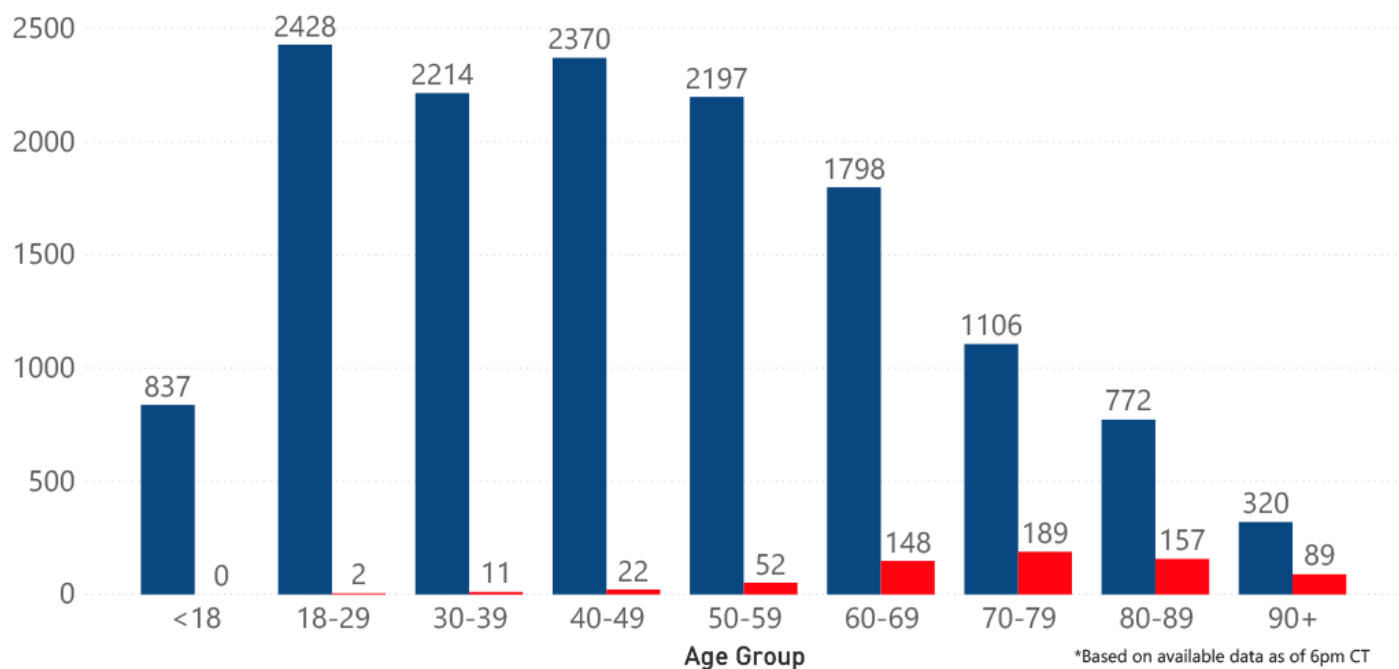

COVID-19 Deaths by Race/Ethnicity through May 26, 2020*, Mississippi

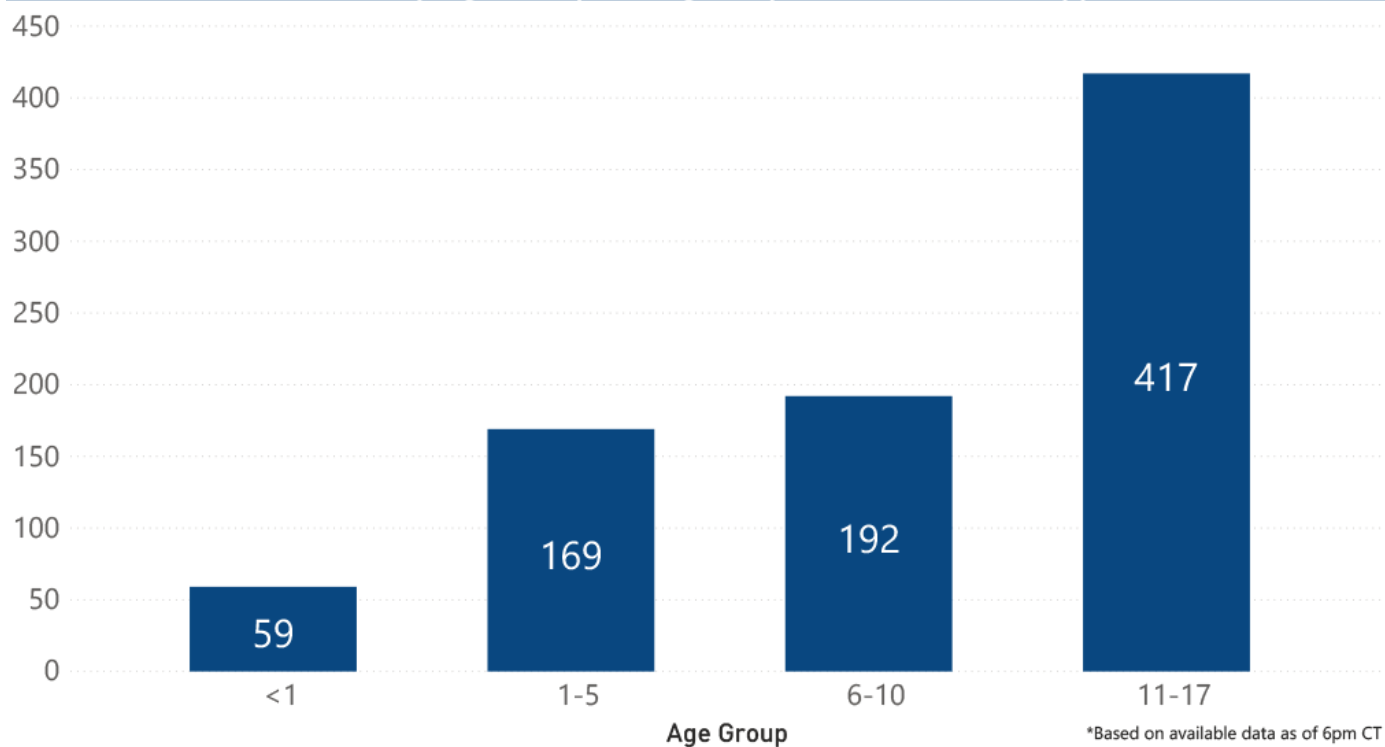

COVID-19 Cases and Deaths by Age Group through May 26, 2020*, Mississippi

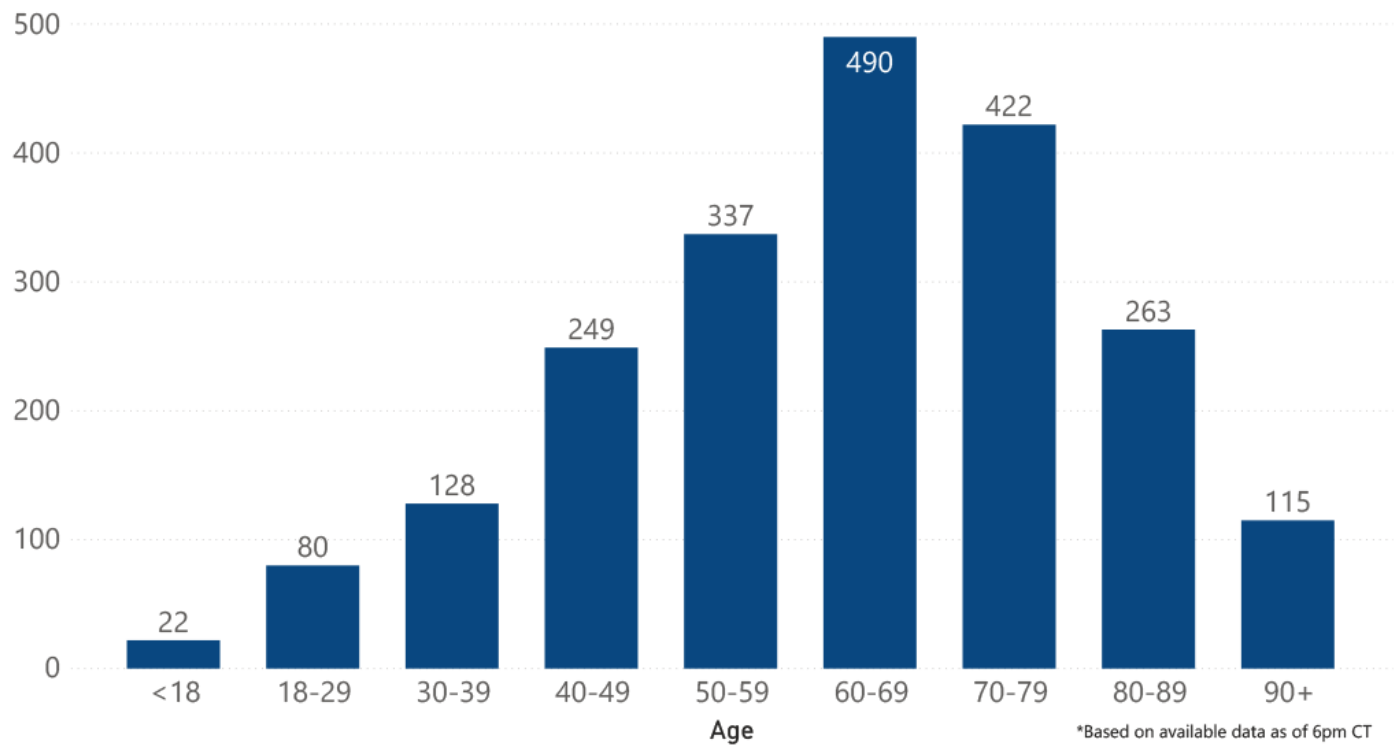

● Cases ● Deaths

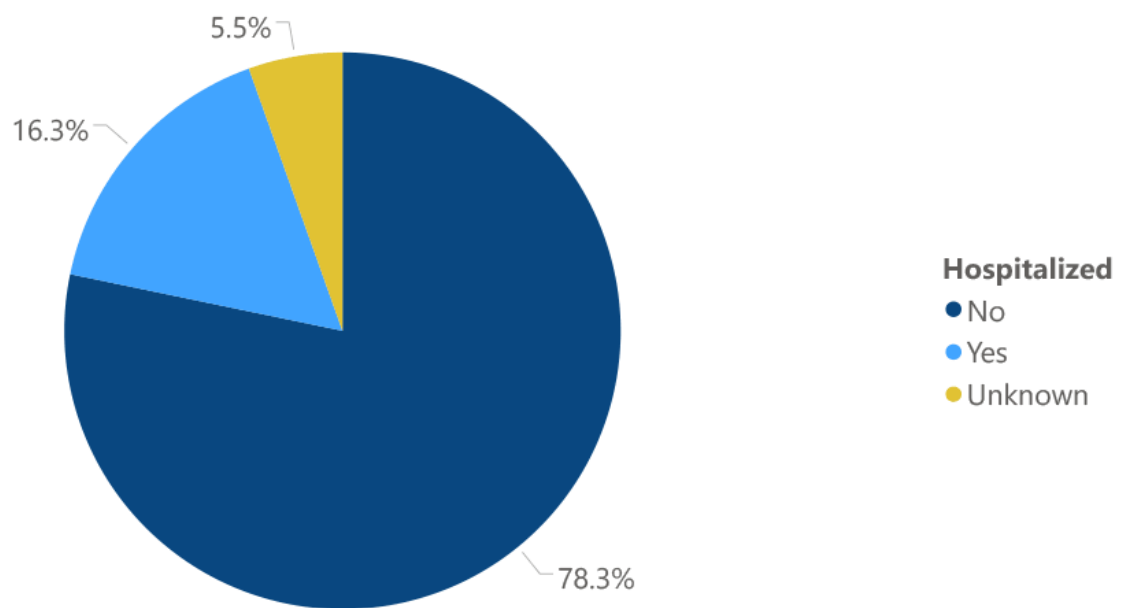

COVID-19 Pediatric Cases by Age Group through May 26, 2020*, Mississippi

COVID-19 Hospitalized Cases by Age through May 26, 2020*, Mississippi

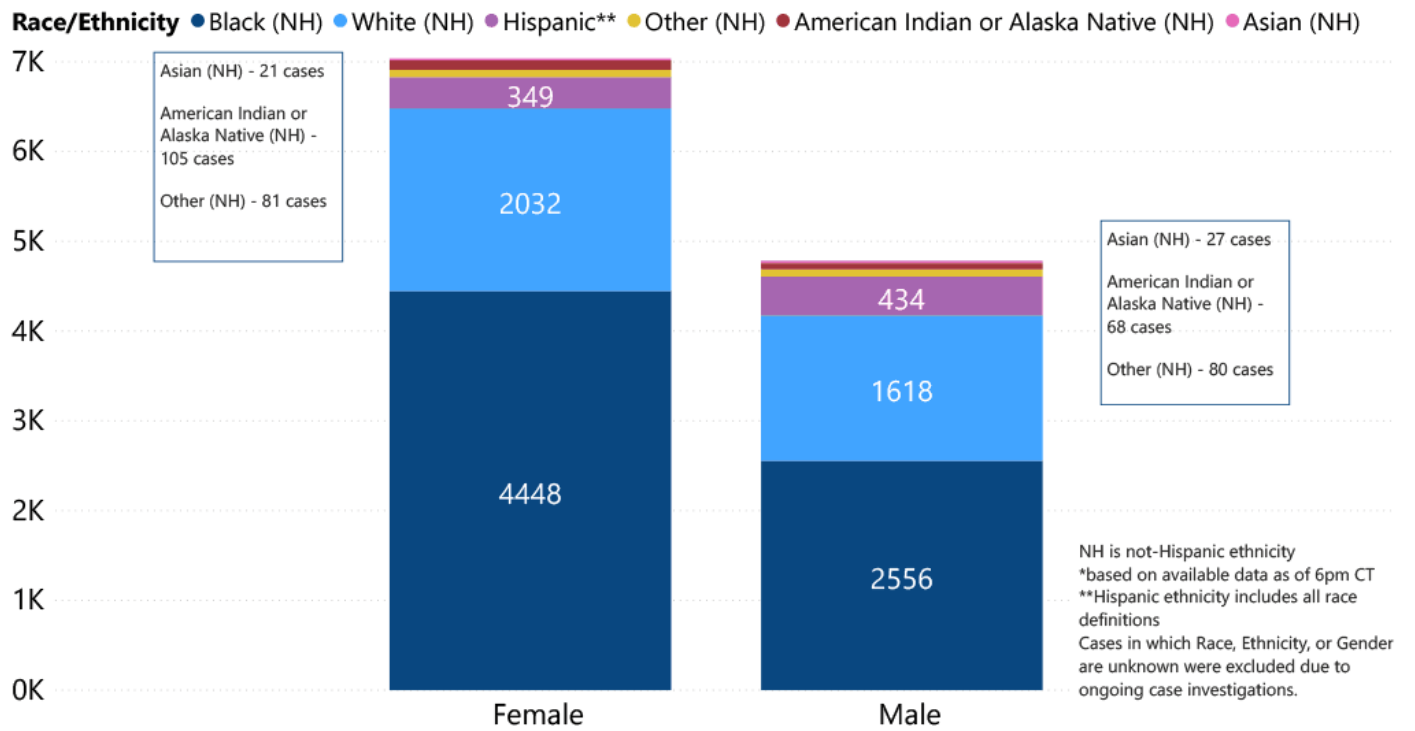

COVID-19 Cumulative Hospitalizations-Investigated Cases May 26, 2020 *

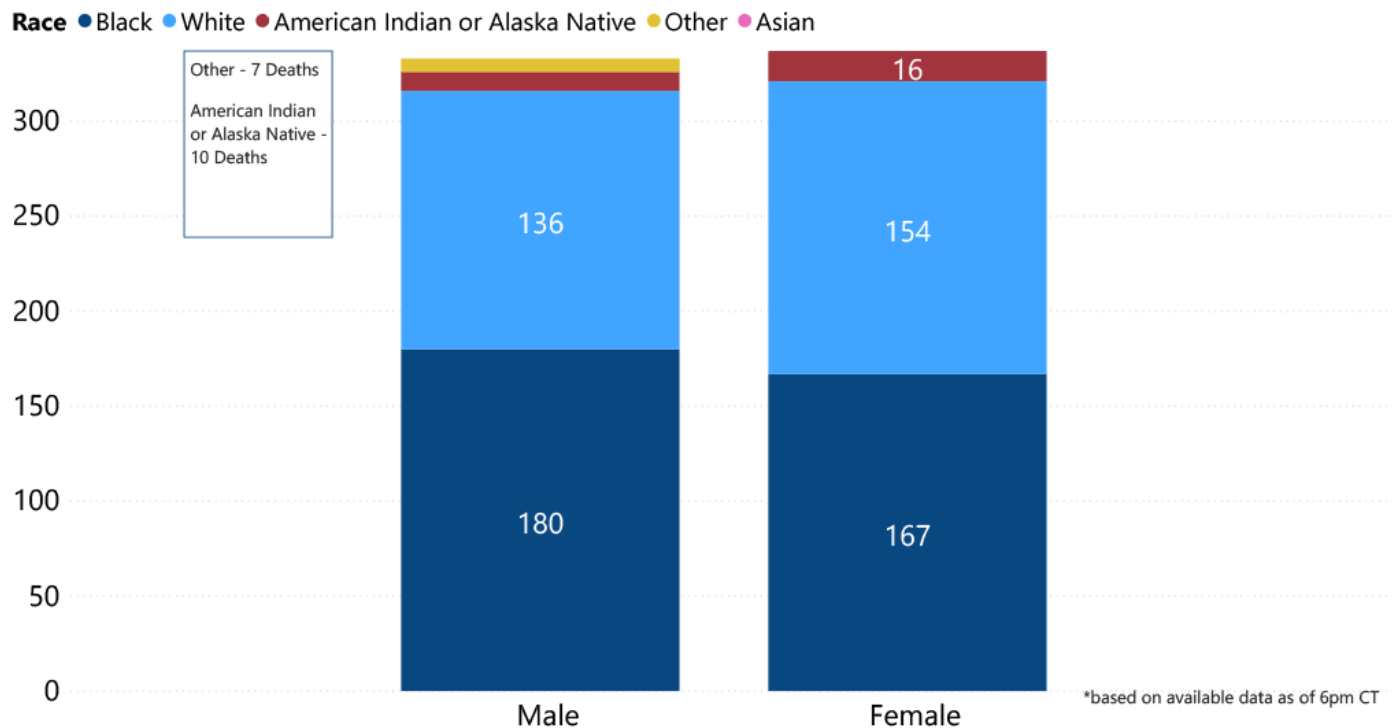

* N=12,941, 1,103 cases excluded due to ongoing investigations, based on available data as of 6 pm CT

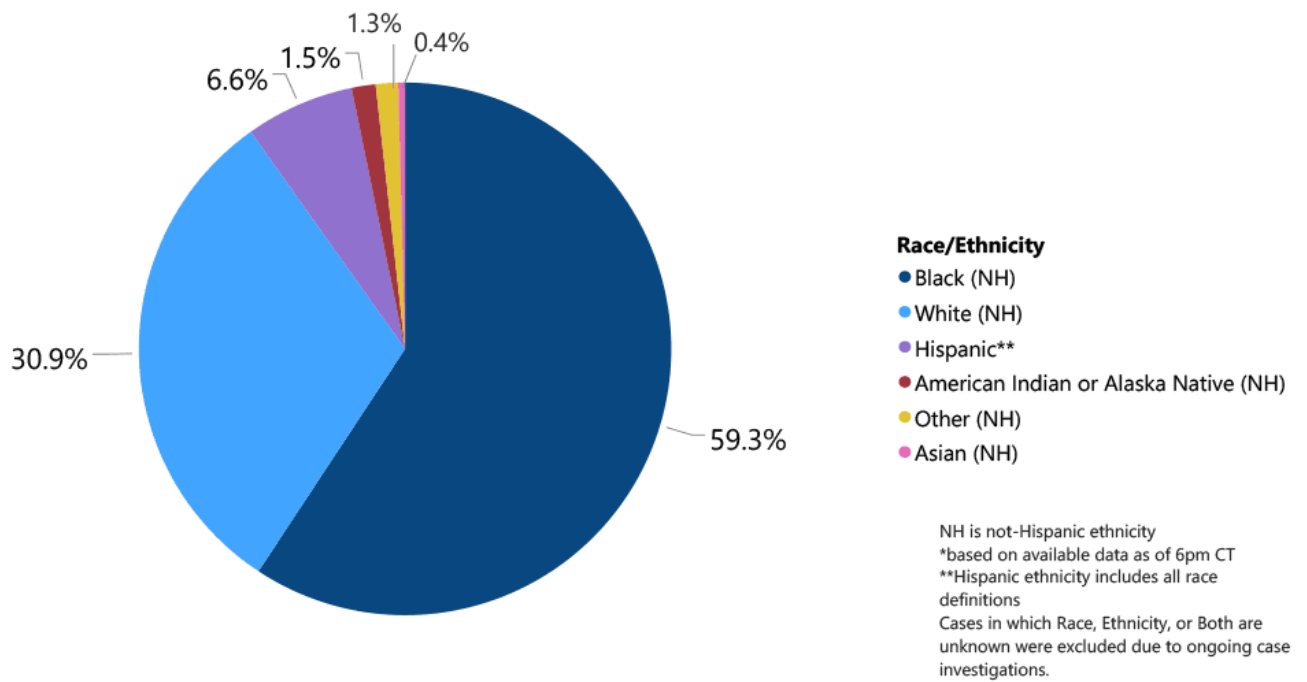

COVID-19 Cases by Race/Ethnicity and Gender through May 26, 2020*, Mississippi

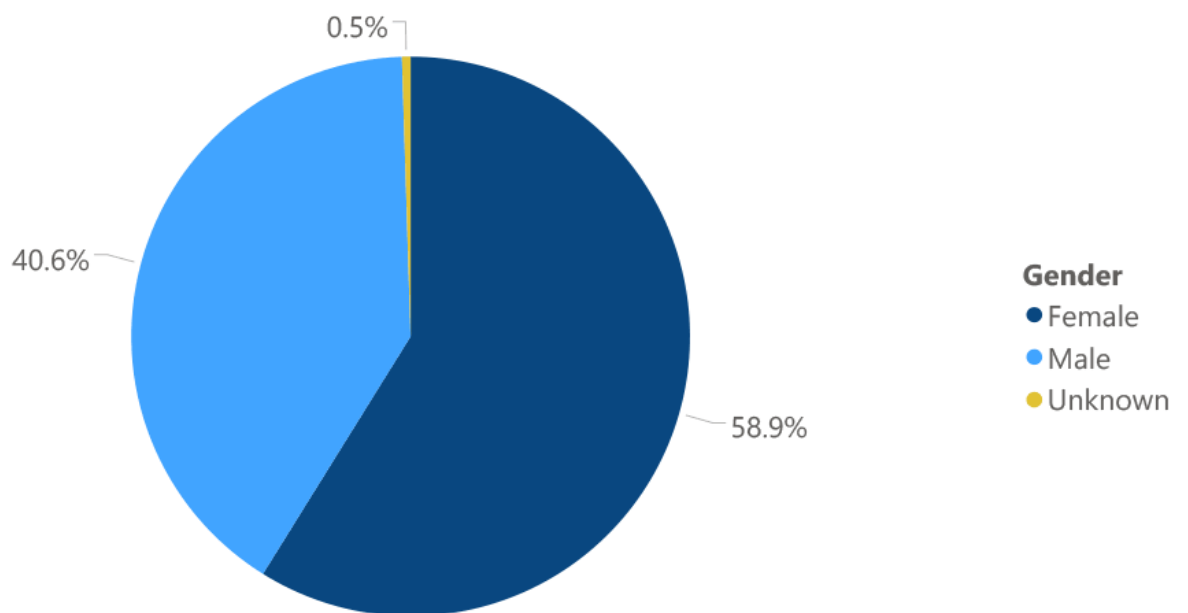

COVID-19 Deaths by Race and Gender through May 26, 2020*, Mississippi

COVID-19 Cases by Race/Ethnicity through May 26, 2020*, Mississippi

COVID-19 Cases by Gender through May 26, 2020*, Mississippi

*Based on available data as of 6pm CT

Weekly High Case and High Incidence Counties

These weekly tables count cases based on the date of testing, not the date the test result was reported, and count only those cases where the date of testing is known.

They rank counties by weekly cases, and by incidence (cases proportional to population). A separate table ranking all counties is also available. All tables updated weekly.

COVID-19 High Case MS Counties Over 1 Week Period (May 18- May 24, 2020*)

County	Cases (May 18-May 24)	Cases per 100,000 (May 18-May 24)	Cases to Date	Cases per 100,000 Total	Percent Change

*based on available data as of 6pm CT

Cases based on test date. Cases without test date excluded due to ongoing investigations.

Table will be updated weekly.

Syndromic Surveillance

Emergency department visits by those with symptoms characteristic of COVID-19, influenza and pneumonia, updated weekly.

Percentage of Emergency Department visits for CLI, ILI, and Pneumonia Cases Weekly Statewide Summary, December 29, 2019 - May 24, 2020

..... COVID-19-Like Illness (CLI) - - - Influenza-Like Illness (ILI) — Pneumonia

*The graph represents syndromic surveillance data from emergency department visits, reported electronically by hospitals throughout the state, that are consistent with COVID-19-Like Illness (CLI), Influenza-Like Illness (ILI), and Pneumonia. Based on available data as of 6pm CT. Graph will be updated weekly.

Estimated Recoveries

Presumed COVID-19 cases recovered, estimated weekly (does not include cases still under investigation).

COVID-19 Presumed Recovered Cases through May 24, 2020, Mississippi

9,401
Presumed Recovered*

*Reflects Provisional Estimates. Presumed Recovered if:

- 1) It has been 14 days or more since the case tested positive, if they were not hospitalized
- 2) It has been 21 days or more since the case tested positive, if they were hospitalized or hospitalization was unknown.

All deaths excluded. Presumed recovered counts will be updated weekly.

COVID-19 Testing

Statewide Combined Testing as of May 25

COVID-19 testing providers around the state include commercial laboratories as well as hospital labs. Combined with testing done by the MSDH Public Health Laboratory, the figures provide a complete picture of all Mississippi testing.

PCR testing detects current, active COVID-19 infection in an individual.

Antibody (serology) testing identifies individuals with past COVID-19 infection based on antibodies they develop one to three weeks after infection.

	Total tests	PCR	Antibody
MSDH Public Health Laboratory	25,103	25,103	0
Other providers	129,521	122,716	6,805
Total tests for COVID-19 statewide	154,624	147,819	6,805

MSDH Individuals Tested as of May 26

MSDH Public Health Laboratory (MPHL) testing totals as of 6 p.m. These totals are for tests performed at the MPHL only.

- Total individuals tested by the MPHL: 24,779
- Total positive individuals from MPHL tests: 2,497

Getting Tested for COVID-19

The MSDH Public Health Laboratory, its partners, and private providers are testing statewide for COVID-19.

Anyone with symptoms of fever, severe cough or severe chest pains – especially those who are older or in poor health – should make arrangements for testing with their doctor or one of the many healthcare providers now performing testing. Healthcare providers can assess your health history and symptoms, and perform testing for COVID-19 as needed. MSDH is also helping conduct free drive-up testing sites in many parts of the state. Always call ahead to the testing provider for instructions on safely being examined before you visit for your test.

What MSDH Is Doing

The Mississippi State Department of Health is aggressively responding to the rapidly evolving COVID-19 situation. With other state agencies, it has activated emergency operations in order to slow the spread of COVID-19 in Mississippi.

Other steps that MSDH is taking include:

- Surveillance: Increasing surveillance (monitoring) activities to identify cases of COVID-19 as quickly as possible and to limit person-to-person transmission.
- Testing: Making COVID-19 testing available for healthcare providers through the MSDH Public Health Laboratory.
- Planning: Working directly with hospitals and healthcare providers across the state to plan for possible cases of COVID-19, preparing them to identify and safely treat cases.
- Readiness: Assessing statewide hospital capacities, ensuring the capacity of the MSDH Public Health Laboratory for COVID-19 testing, and informing all Mississippi healthcare providers about procedures for identifying and testing for coronavirus cases.
- Information: Providing guidance to business, education and other entities on how to respond to the possible spread of COVID-19 in the community.
