Total	1167
Among those with ethnicity specified:	
Hispanic/Latino	77 (8%)
Not Hispanic/Latino	846 (92%)
Total	923

<b>Current Status of Cases</b>	Number of Cases (percent of total)
Hospitalized	20 (1%)
Deceased	23 (2%)
Recovering	446 (38%)
Recovered and released from isolation	678 (58%)
Total number of cases	1167

#### Montana:

County	Number of Cases (percent of total)
Carbon	1 (1.3%)
Cascade	6 (7.9%)
Custer	3 (53.9%)
Dawson	1 (1.3%)
Deer Lodge	1 (1.3%)
Fergus	2 (2.6%)
Flathead	9 (11.8%)
Gallatin	20 (26.3%)
Lake	5 (6.6%)
Lewis and Clark	3 (3.9%)
Lincoln	3 (3.9%)
Missoula	3 (3.9%)
Park	4 (5.3%)
Ravalli	7 (9.2%)
Silver Bow	3 (3.9%)
Toole	1 (1.3%)
Yellowstone	4 (5.3%)
Total	76

Cases reported in the tables above include 13 residents of other states who were tested, isolated and/or hospitalized in Montana during the early phases of the pandemic. As COVID-19 is now widespread across the United States, data no longer include out-of-state residents who test positive in Montana in order to align with Council of State and Territorial Epidemiologists guidelines that classify cases by the individual's usual state of residence. This is standard practice for all communicable diseases to ensure accurate case reporting for Montana and the US. Additional individuals were diagnosed in Montana but are not included due to residency and/or the transient nature of their visit to the state: data for these individuals are reflected in the table immediately above.

# Communicable Disease Epidemiology Staff Listing

To submit a question or comment to the Communicable Disease Epidemiology Program,

please click on the suggestion box to access our online form.

Other Program Areas

- Healthcare Associated Infections (HAI)
- **愛**Sexually Transmitted Diseases (HIV/STD)
- ▲ Antimicrobial Resistance

The DPHHS CDEpi Section mission is to create, maintain, support, and strengthen routine surveillance and detection systems and epidemiological investigation processes, as well as to expand these systems and processes in response to incidents of public health significance.
