### Current Situation

A novel coronavirus (COVID-19) has been identified as the cause of an outbreak of respiratory illness first detected in Wuhan City, Hubei Province, China, and which continues to expand. Cases have been identified in the United States, as well as many other countries. The Centers for Disease Control and Prevention (CDC) and State and local health departments, including the New Hampshire (NH) Department of Health and Human Services (DHHS), Division of Public Health Services' (DPHS), are monitoring this rapidly developing situation. Information about this outbreak will be available here and continuously updated.
