COVID-19 Case Count in North Carolina

Updated regularly as information becomes available.

Presumptive Positive - A positive COVID-19 test that still must be confirmed by another testing laboratory. NCDHHS is responding to presumptive positive cases by following Centers for Disease Control and Prevention (CDC) guidelines to protect public health and limit the spread of infection.

Confirmed Positive - A confirmed positive case means the test has been confirmed by the CDC lab.

One of North Carolina's presumptive positive cases is a Durham resident who tested positive in another state.
