▭ COVID-19 Case Count in North Carolina ＋

COVID-19 Case Count in North Carolina

By the Numbers

Updated daily by 11 a.m. each day. *Last updated 9:35a.m., March 20, 2020.*

NC Cases*	NC Deaths	NC Completed Tests**	US Cases	US Deaths
137	0	3,233	10,442	150

* This number reflects positive results from all tests, including the NC State Laboratory of Public Health and all hospital and commercial labs.

** This number reflects testing completed by the NC State Laboratory of Public Health and reporting hospital and commercial laboratories.

County Map

Situation Updates

NC State Laboratory of Public Health (NCSLPH)

The numbers in this section represent only NCSLPH testing and supplies.

- Now that commercial and hospital laboratories are online with testing and expanding capacity, the NCSLPH will continue to work with partners across the public health systems to support identification and confirmation of COVID-19, assess the prevalence of COVID-19 in a community, and provide testing for underserved populations who may not have access to commercial testing.

- Supplies for approximately 1700 patients at the NCSLPH and does not include supplies at university and commercial laboratories.

- 698 total tests completed at the NCSLPH and does not include tests at university and commercial laboratories.

Guidance and Timeline

- **Telework to the extent possible**

- **Complete list of North Carolina Guidance**
