 COVID-19 Case Count in North Carolina

COVID-19 Case Count in North Carolina

By the Numbers

Updated daily by 11 a.m. each day. *Last updated 12:36 p.m., March 26, 2020.*

NC Cases*	NC Deaths	NC Completed Tests**
636	2	12,910

* This number reflects positive results from all tests, including the NC State Laboratory of Public Health and all hospital and commercial labs.

** This number reflects testing completed by the NC State Laboratory of Public Health and reporting hospital and commercial laboratories.

For [COVID-19 U.S. case information](#)  go to the Centers for Disease Control and Prevention (CDC) website.

County Map*

*County case numbers may change once residence is verified. Therefore, the total number on the county map may differ from the number of NC Cases.

Situation Updates

NC State Laboratory of Public Health (NCSLPH)

The numbers in this section represent only NCSLPH testing and supplies.

- Now that commercial and hospital laboratories are online with testing and expanding capacity, the NCSLPH will continue to work with partners across the public health systems to support identification and confirmation of COVID-19, assess the prevalence of COVID-19 in a community, and provide testing for underserved populations who may not have access to commercial testing.
- Supplies for approximately 1,200 patients at the NCSLPH and does not include supplies at university and commercial laboratories.
- 1,134 total tests completed at the NCSLPH and does not include tests at university and commercial laboratories.
