

COVID-19 North Carolina Dashboard

The COVID-19 test results provided electronically on April 25 to the NC Department of Health and Human Services by Vidant Health incorrectly reported test results as all being positive. Vidant Health is working to correct the transmission problem. These numbers were reflected in the total case count published on the COVID-19 dashboard on ncdhhs.gov/coronavirus. Vidant Health has worked with NCDHHS to update the data. The total revised case count for April 25 is 8,542.

Updated daily by 11 a.m. Last updated 11:00 a.m., April 26, 2020.

| Laboratory-Confirmed Cases | Deaths | Completed Tests | Currently Hospitalized | Number of Counties |
|----------------------------|--------|-----------------|------------------------|--------------------|
| 8,830 | 299 | 107,894 | 451 | 94 |

Laboratory-Confirmed Cases reflect cases that were tested and returned positive, including the NC State Laboratory of Public Health and reporting hospital and commercial labs. All data are preliminary. Not all cases of COVID-19 are tested, so this does not represent the total number of people in North Carolina who have or had COVID-19.

Deaths reflect deaths in persons with laboratory-confirmed COVID-19 reported by local health departments to the NC Department of Health and Human Services.

Completed tests reflect testing completed by the NC State Laboratory of Public Health and reporting hospital and commercial labs.

Currently hospitalized reflect the number of patients with COVID-19 that are currently hospitalized in reporting hospitals.

For [COVID-19 U.S. case information](#) go to the Centers for Disease Control and Prevention (CDC) website.
