

## COVID-19 North Carolina Dashboard

Updated daily by 11 a.m. Last updated 10:20 a.m., April 27, 2020. *Data updated at 4 p.m.*

Laboratory-Confirmed Cases	Deaths	Completed Tests	Currently Hospitalized	Number of Counties
9,142	306	109,920	473	95

Knowing when to dial up or down social distancing and other protections depends on two factors: our Trends in key metrics, and our capacity to conduct Testing and Tracing. Governor Cooper and Secretary Cohen announced a combination of key metrics that North Carolina is watching to inform decisions to ease restrictions. These key metrics are included below.

Laboratory-Confirmed Cases reflect cases that were tested and returned positive, including the NC State Laboratory of Public Health and reporting hospital and commercial labs. All data are preliminary. Not all cases of COVID-19 are tested, so this does not represent the total number of people in North Carolina who have or had COVID-19.

Deaths reflect deaths in persons with laboratory-confirmed COVID-19 reported by local health departments to the NC Department of Health and Human Services.

Completed tests reflect testing completed by the NC State Laboratory of Public Health and reporting hospital and commercial labs.

Currently hospitalized reflect the number of patients with COVID-19 that are currently hospitalized in reporting hospitals.

For [COVID-19 U.S. case information](#) go to the Centers for Disease Control and Prevention (CDC) website.
