

## COVID-19 North Carolina Dashboard

Knowing when to dial up or down measures that slow the spread of the virus depends on North Carolina's testing, tracing and trends. This dashboard provides an overview on the metrics and capacities that the state is following.

On August 5 while conducting data quality monitoring, we identified laboratory reporting omissions for August 2-5. Corrected data for new cases and the percent of tests that are positive has been posted in today's update. [Review](#) an analysis of the corrected data.

Updated daily by approximately 12:00 p.m. Last updated August 7, 2020 at 11:55 a.m.
