

COVID-19 North Carolina Dashboard

The total new lab-confirmed cases on the North Carolina Department of Health and Human Services (NCDHHS) COVID-19 Data Dashboard for Aug. 29 reflects an increase caused, in part, by approximately 1,000 positive tests from dates in the first half of the month that were reported to NCDHHS by LabCorp in the past 24 hours. The Department is working with LabCorp to understand the cause of the delayed reporting; however, LabCorp confirmed that individuals were not delayed in receiving their results.

Knowing when to dial up or down measures that slow the spread of the virus depends on North Carolina's testing, tracing and trends. This dashboard provides an overview on the metrics and capacities that the state is following.

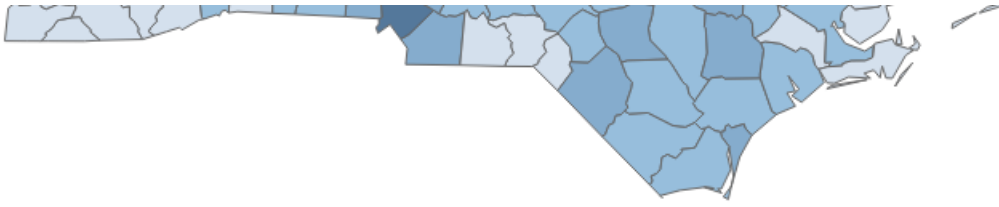

Updated daily by approximately 12:00 p.m. Last updated August 30, 2020 at 11:55 a.m.
