# COVID-19 North Carolina Dashboard

Due to technical issues, two hospital systems were not able to submit all of their data for September 5, 2020. Therefore, hospitalization data for the state as well as for the Eastern Healthcare Preparedness Coalition (EHPC) and the Triad Healthcare Preparedness Coalition (THPC) regions is incomplete. NCDHHS is working with these systems to resolve the issue.
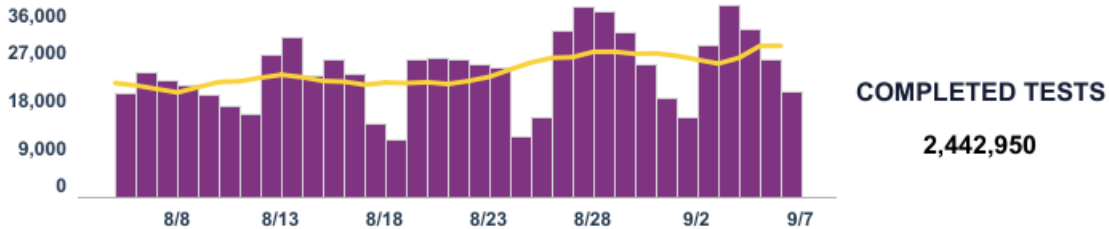

Knowing when to dial up or down measures that slow the spread of the virus depends on North Carolina's testing, tracing and trends. This dashboard provides an overview on the metrics and capacities that the state is following.
