

# COVID-19 North Carolina Dashboard

Starting Sept. 25, 2020, the NCDHHS began reporting on two new measures on the NC COVID-19 Data Dashboards: 1) Antigen-positive cases and deaths and 2) Antigen tests completed. The [Antigen Positive Cases Data: FAQ](#) explains data elements on the dashboards that have been updated and provides additional information on antigen and molecular testing.

Knowing when to dial up or down measures that slow the spread of the virus depends on North Carolina's testing, tracing and trends. This dashboard provides an overview on the metrics and capacities that the state is following.
